ACKNOWLEDGEMENT

I am profoundly grateful to Professor Biman Kumar Dutta, Dean, School of Environmental Science, Department of Ecology and Environmental Science, Assam University, Silchar, Assam, for his thoughtful mentorship and supervision, on all aspects of my research work. He has given me gifts of his patience and wisdom that I cannot repay. I thank Dr. A. B. Singh, Senior Scientist, Institute of Genomics and Integrative Biology, CSIR, for his supervision, gentle encouragement and sincere enthusiasm which helped me to stay on-track.

I extend my sincere thanks to the Institute of Genomics and Integrative Biology, CSIR, for the financial assistance in the form of All India Coordinated project entitled “Studies on Allergens & Molecular Biology of Asthma in North East & Sikkim” under the supervision of Prof. B.K. Dutta, Department of Ecology & Environmental Science, Assam University, Silchar (Assam).

This thesis work could not have been of its present shape without the help of Dr. B. R. Shome, Senior Scientist, Molecular Biology Laboratory, Animal Health Division, ICAR, Barapani, Meghalaya. Thanks also to Dr. H. Rahman, Head, Division of Animal Health, ICAR, Barapani, for allowing me to work in the ICAR laboratory.

I owe the greatest debt of gratitude to Dr. Gobinda Kumar Chakraborty, Silchar Heart Care Centre, Silchar; Dr. Rahul Gupta, Aar Gee Medical Centre, Silchar; Dr. C. S. Das, Silchar Medical College and Hospital and Dr. Vijay Kumar, Usha Hospital, Silchar, for their help and cooperation in clinical examination of allergic patient during my research work.
Help from Professor N.I. Singh, Department of Life Science, Manipur University, Manipur; Prof. U.K. Siddharta, Head, Scientific Instrumentation Centre, Burdwan University, West Bengal & Dr. S. Chakraborty, Demonstrator, Scientific Instrumentation Centre, Burdwan University, for their help in microscopic work and for providing literature, which has been helpful to my thesis work.

Thanks also due to Dr. A.K. Das, Head, Department of Ecology and Environmental Science, for allowing me to avail the laboratory facilities of the Department of Ecology and Environmental Science and for his encouragement.

I owe the greatest debt of gratitude to my parents, Late B.P. Sharma and Smt. Uma Sharma for nurturing my eclectic interests from a very young age, for their compassion and understanding of the many turns my life has taken, and for the unconditional freedom, support and love that they have given me as I pursue my dreams. For all this and much more, I dedicate this thesis to them.

Dhruba Sharma
