ACKNOWLEDGEMENT

As the outset, I humbly bow down to the Almighty God Shri Shri Anukul Chandra, the invisible power which has made all my work possible.

I am greatly indebted to Prof. Tapodhir Bhattacharjee, Vice Chancellor, Assam University, Silchar for his constant encouragement and blessing for my research work.

I offer my heartfelt gratitude and profound indebtedness to my guide Prof. S. B. Paul, Department of Chemistry, Assam University, Silchar, for his guidance and supervision in every aspect of the thesis work. The multifaceted personality and skillful approach of my guide has been a constant driving force and a measure of perfection to me. Words fail me when I express my gratitude to Prof. S. B. Paul for his valuable suggestions and advice. His tireless guidance and encouragement in every step of acquiring the data of this research work made it possible for me to get momentum in continuing and completion this work. His hard work inspired me to maintain the constancy of my purpose while going through the difficult phase of my experiments. I am extremely fortunate to have had the opportunity of getting Prof. S. B. Paul as my supervisor. I thank him for his kind forbearance in accepting all pains to support me throughout the period of the study which helped me channelize my endeavours in proper direction.

Dr. B.K. Tiwary, the renowned teacher is kind enough to help the research scholars without any time constraint. He was extremely encouraging from the beginning to the end of my research work. His
suggestions and supervision in every step of solving my problems related to this work.

I shall always remember every help, elder sister attitude and suggestions of Dr. Mukta Paul during the initiation, progression and completion of this work. Despite her busy life schedule and repeated illness she took every care to encourage me and to make me feel comfortable during examinations & presentations. I sincerely thanks to Dr. Mukta Paul for her constant support, valuable help & suggestions from time to time during the thesis work.

One of the most encouraging persons of the Dept. of Chemistry is Prof. NVS Rao. He always advised and insisted for my early completion of this work. I was inspired by his valuable words. His good spirits and helping hand towards our work is ever memorable for me.

Prof. C.R. Bhattacharjee helped me as if he was a co-supervisor of my study work, though officially he was not. His experience, knowledge and valuable time are embedded in my success during the complex research work. I thank him from the core of my heart for his active help as well as his suggestions.

Another most encouraging person of the Dept. of Chemistry is Prof. M.R. Islam. His valuable suggestions and co-operations during my work and seminars deserve my special & heartfelt thanks.

My special thanks to Dr. Sudip Choudhury who is another teacher helping me like a co-supervisor during the work. He was always interested in discussing my work with me, and always gave good suggestions. His care, guidance and inspirations deserve special mention.

I will be failing in my duty if I do not mention the help and necessary advice of Dr. Dibyajyoti Bhattacharjee of Business Administration
Department of Assam University, Silchar by calculating statistical figure nicely in my thesis.

I offer my sincere gratitude to Prof. S.S. Dhar, Ex-Principal-cum-Chief Superintendent, Silchar Medical College & Hospital, Silchar for allowing me to carry out the entire thesis work in the Department of Obstetrics & Gynaecology, SMCH.

I express my deep acknowledgment to Dr. M.K. Dey, Superintendent, SMCH for allowing me to publish the hospital data.

It is a privilege to express my gratitude and sense in indebtedness on my respected teacher Prof. Devidas Dutta, Ex-Principal, Silchar Medical College & Hospital, Silchar, & Ex- Prof. & Head of the Department O&G Silchar Medical College & Hospital, Silchar.

It is privilege to express my sincere gratitude to Dr. B.K. Barua, Ex-Porf., Dept of O&G for extending his valuable advice and support.

Without the help of the students of Assam University, Chemistry department and post graduate students of O&G department, Silchar Medical College, Silchar, this thesis would have been taken much longer time to complete. During work their suggestions brought the solutions. I acknowledge them my sincere gratitude for their generous help and co-operations.

I must also thanks to Lalpath & Ranbaxy Laboratory, MSD company.

My special thanks to Dr. Chitley, Bombay Joshlok Hospital, Electronon Microscopic Department for doing an excellent Electron Microscopic work of carcinoma cervix.

I also convey my heartfelt gratitude of my student Dr. Banshree Bhadra, MD, Assistant Professor, Kalyani Medical College, West Bengal for her active help in completion of this thesis.
The inspiration of, teachings and guidance of my father Late Anukul Paul Choudhury, my mother Mrs. Basanti Paul Choudhury & my wife Mrs. Shubhra Paul Choudhury has made me what I am today. Special thanks to my children Subhanjan Paul Choudhury & Anurag Paul Choudhury for helping in computer work. Their perspiration and dedication cannot be repaid by acknowledging thanks of anything else in this world. I owe the greatest debt of gratitude to them.

My special thanks to my Brother in law Mr. Alok Das & sister in law Mrs. Kamal Manchanda in Switzerland for helping me sending some data from Geneva.

No word is sufficient for my friend Mr. Chayan Chakraborty and Dr. Debojyoti Nath who took so many responsibility and hard work along with me to complete the thesis.

No work is sufficient to praise Miss Monamika Dey & Bijoy Roy for compiling computer work.

At the end I would like to share the joy of our novel discovery with all of persons mentioned above and to my patients who took active participation.
