ACKNOWLEDGEMENTS

I wish to express my deep sense of gratitude to my esteemed teacher Professor Harkishan Singh for his guidance throughout the course of this investigation and critical suggestions during preparation of the manuscript.

My sincere thanks are due to Professor K. N. Gaind, Head of the Department, for providing the necessary facilities for research work.

I gratefully acknowledge the kind courtesy of Professor W. B. Whalley, University of London, and Dr. Nitya Nand, Central Drug Research Institute, Lucknow, for their help in obtaining elemental, spectral, and optical rotation analyses data. A generous supply of dehydroepiandrosterone acetate by G. D. Searle and Co. is also appreciated.

The financial support received from the Council of Scientific and Industrial Research, New Delhi, is gratefully acknowledged.
