ACKNOWLEDGEMENT

It has been my privilege to work as a research student under the inspiring and able guidance of Dr. Y.C. Chopra, Professor and Head, Electronics and Electrical communication engineering and also Head of Computer science and engineering department of Punjab Engg college, Chandigarh. His boundless enthusiasm, untiring patience, constant supervision and timely help are largely responsible for the research work presented in this thesis.

I am equally grateful to Dr S.K. Arora, Head Seismology section (Nuclear Physics Group) of Bhabha Atomic Research Centre (BARC) Bombay, for his highly valuable guidance, timely suggestions and technical discussions required to complete this work.

Without personal involvement of my supervisors, it could not have been possible for me to bring this work to a successful logical end.

I am thankful to Prof K.R. Sarma, Director, CSIO-Chandigrah, and formerly adviser to the Department of Science and Technology (DST)-New Delhi on 'Instrument development programme' for his valuable technical discussions. I am also grateful to him in getting the partial financial assistance from DST, New DELHI.

I am sincerely indebted to Dr. S.R. Gowariker for his very keen interest in this research work during his tenure as Director, CSIO, Chandigrah.
I express my gratitude to Prof. Harsh Vardhan, Ex-Director CSIO, Chandigrah and Prof. V.K. Gaur, Secretary department of ocean development- Govt of India, for their encouragement and valuable suggestions.

I am very thankful to Sh. V.K. Gupta, Sh. B.K. Sharma, Sh. S.K. Mital and Sh. V.P. Sharma, scientists from CSIO, for the contribution and assistance provided by them in the development of hardware/software of various electronic modules and assemblies used in the configuration of local seismic network. Without their participation, this work could not have been completed.

I sincerely acknowledge the help rendered by Sh. A.K. Vats, Mrs. B.K. Sandhu, Sh. Ravi Kumar Aggarwal, Miss Rajni Bansal and Sh. Ajay Saxsena during the fabrication of various electronic cards needed for this system.

Thanks are due to Sh. D.P. Goel, Sc/I, P.I.D. (CSIO) and to his staff members for the valuable assistance provided by them for printing facilities.

I am also thankful to Sh. R.S. Sharma and Sh. Madan Lal for making drawings and to Sh. Surinder Ratan and Sh. Avtar Singh for typing work for this dissertation.

At last but not the least, I am sincerely thankful to my wife, Zarina Shamshi and children, Zubin and Kaukab for their cooperation, patience and help to complete this work.

Dated

Maher Alam Shamshi
