2.19 Enthalpies of Mixing for The System Ethyl acetate-o-Xylene, J/mol

2.21 Enthalpies of Mixing for the System Ethyl acetate-p-Xylene, J/mol

2.22 Enthalpies of Mixing for the System Butyl acetate-o-Xylene, J/mol

2.23 Enthalpies of Mixing for the System Butyl acetate-m-Xylene, J/mol

2.24 Enthalpies of Mixing for the System Butyl acetate-p-Xylene, J/mol

2.25 Enthalpies of Mixing for the System i-Amyl acetate-o-Xylene, J/mol

2.26 Enthalpies of Mixing for the System i-Amyl acetate-m-Xylene, J/mol

2.27 Enthalpies of Mixing for the System i-Amyl acetate-p-Xylene, J/mol

2.28 Enthalpies of Mixing for the System Acetic acid-o-Xylene, J/mol

2.29 Enthalpies of Mixing for the System Acetic acid-m-Xylene, J/mol

2.30 Enthalpies of Mixing for the System Acetic acid-p-Xylene, J/mol

2.31 Comparison between Experimental and Predicted Enthalpies of Mixing for the System Ethyl acetate-o-Xylene, J/mol

2.32 Comparison between Experimental and Predicted Enthalpies of Mixing for the System Ethyl acetate-m-Xylene, J/mol

2.33 Comparison between Experimental and Predicted Enthalpies of Mixing for the System Ethyl acetate-p-Xylene, J/mol

2.34 Comparison between Experimental and Predicted Enthalpies of Mixing for the System Butyl acetate-o-Xylene, J/mol
2.35 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
Butyl acetate-m-Xylene, J/mol............................ 134

2.36 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
Butyl acetate-p-Xylene, J/mol............................ 136

2.37 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
i-Amyl acetate-o-Xylene, J/mol............................ 138

2.38 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
i-Amyl acetate-m-Xylene, J/mol............................ 140

2.39 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
i-Amyl acetate-p-Xylene, J/mol............................ 142

2.40 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
Acetic acid-o-Xylene, J/mol............................... 144

2.41 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
Acetic acid-m-Xylene, J/mol............................... 146

2.42 Comparison between Experimental and Predicted Enthalpies of Mixing for the System
Acetic acid-p-Xylene, J/mol............................... 148

3.1 Experimental set-up for Measuring Ultrasonic Velocities................................. 157

3.2 The Measuring Cell of the Ultrasonic Interferometer..................................... 158

3.3 Comparison of Experimental Excess Compressibilities for the System
Benzene-Cyclohexane, TPa^-1................................ 162

3.4 Excess Volumes for the System
Ethyl acetate-o-Xylene, cm^3/mol........................ 179

3.5 Excess Volumes for the System
Ethyl acetate-m-Xylene, cm^3/mol........................ 181

3.6 Excess Volumes for the System
Ethyl acetate-p-Xylene, cm^3/mol........................ 183

3.7 Excess Volumes for the System
Butyl acetate-o-Xylene, cm^3/mol........................ 185
3.8 Excess Volumes for the System
Butyl acetate-m-Xylene, cm$^3$/mol...................... 187
3.9 Excess Volumes for the System
Butyl acetate-p-Xylene, cm$^3$/mol........................ 189
3.10 Excess Volumes for the System
i-Amyl acetate-o-Xylene, cm$^3$/mol...................... 191
3.11 Excess Volumes for the System
i-Amyl acetate-m-Xylene, cm$^3$/mol...................... 193
3.12 Excess Volumes for the System
i-Amyl acetate-p-Xylene, cm$^3$/mol...................... 195
3.13 Excess Volumes for the System
Acetic acid-o-Xylene, cm$^3$/mol........................... 197
3.14 Excess Volumes for the System
Acetic acid-m-Xylene, cm$^3$/mol........................... 199
3.15 Excess Volumes for the System
Acetic acid-p-Xylene, cm$^3$/mol........................... 201
3.16 Ultrasonic Velocities for the Systems
Ethyl acetate + o-Xylene, + m-Xylene, + p-Xylene, m/s 202
3.17 Ultrasonic Velocities for the Systems
Butyl acetate + o-Xylene, + m-Xylene, + p-Xylene, m/s 203
3.18 Ultrasonic Velocities for the Systems
i-Amyl acetate + o-Xylene, + m-Xylene, + p-Xylene, m/s 204
3.19 Excess Compressibilities for the System
Ethyl acetate-o-Xylene, TPa$^{-1}$........................... 206
3.20 Excess Compressibilities for the System
Ethyl acetate-m-Xylene, TPa$^{-1}$........................... 208
3.21 Excess Compressibilities for the System
Ethyl acetate-p-Xylene, TPa$^{-1}$........................... 210
3.22 Excess Compressibilities for the System
Butyl acetate-o-Xylene, TPa$^{-1}$........................... 212
3.23 Excess Compressibilities for the System
Butyl acetate-m-Xylene, TPa$^{-1}$........................... 214
3.24 Excess Compressibilities for the System
Butyl acetate-p-Xylene, TPa$^{-1}$........................... 216
3.25 Excess Compressibilities for the System
i-Amyl acetate-o-Xylene, TPa$^{-1}$........................... 218
3.26 Excess Compressibilities for the System
i-Amyl acetate-m-Xylene, TPa^{-1} ........................................ 220

3.27 Excess Compressibilities for the System
i-Amyl acetate-p-Xylene, TPa^{-1} ........................................ 222

4.1 Ubbelhode Viscometer ................................................. 237

4.2 Experimental set-up for Viscosity determinations.............. 238

4.3 Viscosities for the Systems
Ethyl acetate + o-Xylene, + m-Xylene, + p-Xylene, cP. 246

4.4 Viscosities for the Systems
Butyl acetate + o-Xylene, + m-Xylene, + p-Xylene, cP. 250

4.5 Viscosities for the Systems
i-Amyl acetate + o-Xylene, + m-Xylene, + p-Xylene, cP 254

4.6 Viscosities for the Systems
Acetic acid + o-Xylene, + m-Xylene, + p-Xylene, cP. 258

4.7 Excess Viscosities for the System
Ethyl acetate-o-Xylene, cP ............................................... 260

4.8 Excess Viscosities for the System
Ethyl acetate-m-Xylene, cP ............................................... 262

4.9 Excess Viscosities for the System
Ethyl acetate-p-Xylene, cP ............................................... 264

4.10 Excess Viscosities for the System
Butyl acetate-o-Xylene, cP ............................................... 266

4.11 Excess Viscosities for the System
Butyl acetate-m-Xylene, cP ............................................... 268

4.12 Excess Viscosities for the System
Butyl acetate-p-Xylene, cP ............................................... 270

4.13 Excess Viscosities for the System
i-Amyl acetate-o-Xylene, cP ............................................... 272

4.14 Excess Viscosities for the System
i-Amyl acetate-m-Xylene, cP ............................................... 274

4.15 Excess Viscosities for the System
i-Amyl acetate-p-Xylene, cP ............................................... 276

4.16 Excess Viscosities for the System
Acetic acid-o-Xylene, cP ............................................... 278

4.17 Excess Viscosities for the System
Acetic acid-m-Xylene, cP ............................................... 280
| 4.18 | Excess Viscosities for the System Acetic acid-p-Xylene, cP | 282 |
| 4.19 | Excess Gibbs free energies of activation of flow for the system Ethyl acetate-o-Xylene, J/mol | 284 |
| 4.20 | Excess Gibbs free energies of activation of flow for the system Ethyl acetate-m-Xylene, J/mol | 286 |
| 4.21 | Excess Gibbs free energies of activation of flow for the system Ethyl acetate-p-Xylene, J/mol | 288 |
| 4.22 | Excess Gibbs free energies of activation of flow for the system Butyl acetate-o-Xylene, J/mol | 290 |
| 4.23 | Excess Gibbs free energies of activation of flow for the system Butyl acetate-m-Xylene, J/mol | 292 |
| 4.24 | Excess Gibbs free energies of activation of flow for the system Butyl acetate-p-Xylene, J/mol | 294 |
| 4.25 | Excess Gibbs free energies of activation of flow for the system i-Amyl acetate-o-Xylene, J/mol | 296 |
| 4.26 | Excess Gibbs free energies of activation of flow for the system i-Amyl acetate-m-Xylene, J/mol | 298 |
| 4.27 | Excess Gibbs free energies of activation of flow for the system i-Amyl acetate-p-Xylene, J/mol | 300 |
| 4.28 | Excess Gibbs free energies of activation of flow for the system Acetic acid-o-Xylene, J/mol | 302 |
| 4.29 | Excess Gibbs free energies of activation of flow for the system Acetic acid-m-Xylene, J/mol | 304 |
| 4.30 | Excess Gibbs free energies of activation of flow for the system Acetic acid-p-Xylene, J/mol | 306 |
