The author wishes to express his deep sense of gratitude to Dr. J. S. Bajwa, Professor and Head, Department of Electronics and Electrical Communication, Punjab Engineering College, Chandigarh, for his advice, consultation and help during the course of this research which would have been rather impossible to be carried out without his active and inspiring guidance.

The author is indebted to Dr. B. Thaper, Professor in Electrical Engineering, Punjab Engineering College, Chandigarh and Professor A. K. Srivastav, Head of Electrical Engineering Department at College of Engineering, Goa, for their keen interest and constant encouragement during the preparation of this work.

The author owes thanks to Professor T. J. Higgins, Professor C. F. Chen, Dr. L. S. Shieh, Dr. Y. Shamash, Professor J. Das and Dr. Harpreet Singh for encouraging comments, suggestions and for the material received from them in connection with the preparation of this thesis.

The financial assistance for this work from University Grants Commission of India and Chandigarh Administration is gratefully acknowledged.
The author also wishes to thank his colleagues in the Departments of Electrical Engineering and Electronics and Electrical Communication at Punjab Engineering College, Chandigarh and College of Engineering, Goa for their cooperation and help. Thanks are also due to the staff of Computer Centre at Punjab University, Chandigarh for their cooperation and help.

Finally, the author is thankful to Mr. Bhagwandas and Mr. Manjit Kumar Bedi for typing the manuscript and Mr. Lal Singh for preparing drawings.

Khatwani Krishna Jethanand
