Acknowledgements

It is a pleasure in presenting this piece of work, which could not have been possible without the guidance and splendid supervision of my respected supervisor Dr. Manabendra Dutta Chaudhury, Associate Professor, Department of Life Science, Assam University, Silchar, who with his vast erudition and patient mind as a Research-Guide sailed me through all obstacles - academic as well as administrative - to accomplish the project successfully. All along, the help I got from him and the discussion with him were motivations to do better each time. I thank him for the lessons learnt in the process which will help me to go forward.

I express my sincere gratitude to my co-supervisor, Prof. Manas Chakraborty, Sr. Professor, Deptt of Chemistry, Bose Institute, Kolkata for providing me all the facilities while working there. I am ever grateful to him for his valuable suggestions in analysing the spectroscopic data as well as in compiling the thesis. I offer my sincere gratefulness to my co-supervisor, Prof. Biman K. Dutta, Head, Department of Ecology and Environmental Sciences, Assam University, Silchar, for being the strong guiding force behind my Ph.D. research.

I convey my gratitude to Prof. Topodhir Bhattacharjee, Hon’ble Vice Chancellor, Assam University, Silchar who supported my endeavour whole heartedly.

I am thankful to Prof. G. D. Sharma, HOD, Department of Life Sciences, and Dean School of Life Sciences, Assam University, Silchar for providing me with the laboratory facilities.

I like to gratefully acknowledge the encouragement and advice from my esteemed teachers of the department of Life Science, Assam University, Silchar.

I am grateful to Dr. R. Chakraborty, Principal, Karimganj College, and Dr. Sakhi Dutta, HOD, Deplt. of Botany and Biotechnology, Karimganj College for providing all laboratory facilities where I have done part of my work. I convey my thanks to Dr P.S. Das, faculty of deptt. of Botany and Biotechnology for his help during my field work. Thanks to all the faculty of deptt. of Botany and Biotechnology, Karimganj College for their support.

I acknowledge with thanks the help received from Mrs. S. Bhattacharjee, STA,
Mrs. M. Sinha, JTA., Mr, A. Mandal, and Lab Attendant in the laboratory during the course of my work.

Thanks are due to Ms. Deepa Nath, UGC Project Fellow, Deptt. of Botany and Biotechnology, Karimganj College, for helping me throughout the laboratory work and compiling this thesis. I convey my sincere thanks to Ajanta Mukherjee, Ratna Mukherjee, Sulakshana Karmakar, Tarak Kundu, Mrinal Sarkar; Research fellow, Bose Institute, Kolkata, Anusuya Chakraborty, IIT, Kharagpur, Dr. Hrishikesh Upadhyay, RA, IIT Guwahati, for their support and encouragement. I also owe my thankfulness to Dr. Shuvasish Chaudhury, Assistant Professor, CIL, Assam University; Pankaj Chetia, Research Associate, BIF, Department of Life Science, Assam University; my beloved students Abhijit Mitra, Nandita Chakraborty, Debarati Choudhury, Ramananda Ghosh Tarafdar, Prakash Roy Choudhury and along with all other Research Scholar of the Department of Life Science, Assam University, Silchar for their constant encouragement and best wishes.

I would like to offer my heartiest gratitude to Dr. Himadri Sekhar Das, Assistant Professor, Deptt. of Physics, for introducing me into the world of LATEX style file for this thesis writing. I am thankful to him for his all kind of suggestion and moral support.

Thanks are also due to Dr. D. Dey, SAIF, North Eastern Hill University, Shillong (India), Mr. Keshu Singh, CIF, IIT, Guwahati, and Dr. Manoj Paul, Assistant Professor, Deptt. of Chemistry, Assam University Silchar, for providing the spectroscopic facility. I gratefully acknowledge the help from Dr. Sudip Choudhury, Lecturer, Deptt of Chemistry, G.C College, and Pinak Pani Nath Choudhury, Lecturer, Deptt. of Zoology, S.S College; Hailakandi.

I express my thanks to forest staffs of all the Reserve Forests of Southern Assam, for assisting me during my field work.

I would like to offer my thanks to Mr. Parial Scientific Syndicate, Guwahati and Mr. R. Saha, Chandra Drugs Silchar, for supplying me chemicals and other accessories for this work. Thanks are due to Mr. Santunu Paul, for proving Internet facility whenever needed.

I thank my friends Bijay Bhattacharjee, Basab Bhattacharjee, Manoj Deb, Mo-
hitosh Das, and Biswajyoti Choudhury for their kind cooperation and help at the time of working at Shillong and Guwahati.

I am grateful to University Grants Commission (UGC), New Delhi for providing me the financial support.

How can I miss such a wonderful opportunity to show my regards & all my heartiest gratitude to my family member that comprises of my parents Sri Akhil Chandra Talukdar and Priti Talukdar; my sisters Amita and Mandira; my brother in law Shyamal, my nephew Subhodip, who were ever response to my all kind of needs thus being source of my inspiration in the days I needed it most. I am grateful to Dr. K. Dutta Choudhury, Reader, Deptt. of Mathematics, Assam University, who as a family member, always guided me during my work. I convey my heartiest thanks to Joydip Chakraborty, SRF, Bose Institute Kolkata, who like my family member helped me lot at the time of working at Bose Institute.

Last but not the least; I am eternally thankful to the Almighty by whose grace all have gone so well.
