ACKNOWLEDGEMENTS

I am indebted to Dr. S.M. Agarwal, Professor and Head of Zoology Department, Government College of Science, Raipur under whose supervision this work has been completed.

Thanks are due to Mr. J.N. Das, Lecturer, Polytechnique College, Durg, Dr. A.S. Dave, Reader, College of Engineering, Raipur, Mr. Norihiko Tanaka, Research Scholar, Visva Bharati University, Santiniketan for help in translation work and to Shri R.K. Agarwal, Research Scholar, for help in photography.

Grateful thanks are also due to the authorities of Zoological Survey of India, Calcutta and Fisheries Department, Rajnandgaon for their help in the specific determination of snails and fishes.
I would also like to express my gratitude to the University Grants Commission and the authorities of Ravishankar University, Raipur for providing research assistance, and to the two respected Principals of my college, Shri Kishorilal Shukla and Shri M.N. Kanoje, who gave me encouragement and unreserved help.

Dated,

the 11th April, 1974. (S.R. Ubgade)
