ACKNOWLEDGEMENTS

If I have seen further it is only by standing on the shoulders of giants.

-Sir Isaac Newton

I take pleasure in expressing my profound gratitude to my guide Prof. Dr. N. K. Sane for being a wonderful adviser. His endless support, patience, insight, availability, and flexibility have all been crucial to my success. I am extremely grateful to my co-guide Prof. Dr. R. R. Kulkarni, who has taken keen interest and tremendous enthusiasm in providing excellent guidance and valuable suggestions towards the completion of my thesis. Under their able guidance and constant encouragement, I have this opportunity of completing this thesis. I will remain grateful to them for the inspiring guidance, valuable advice and efforts to bring the thesis to completion. This research work has enriched my life and increased my thinking and understanding capability.

This research work could be completed because of the keen interest shown by Director Prof. Dr. R. M. Jalnekar, Prof. Dr. S. Pavithran, Prof. Dr. M. K. Nalawade, Head, Mechanical Engineering Department, and Prof. Dr. S. V. Joshi, Research Committee Member and Ph. D. Coordinator for providing all the help required for the completion of the research work. I appreciate the counseling and time provided by them. Their guidance has played a major role in strengthening my engineering skill set and enhancing my confidence.

This research work could be completed due to motivation and strong support of Executive Director of MIT Group of Institutes Prof. Dr. M. T. Karad. I sincerely thank him. I am grateful to University of Pune for providing Research Grant for this research work.

Needless to mention Prof. Dr. S. N. Kaul, Prof. Dr. V. M. Wadhai, Prof. Dr. B. S. Kothavale, and Prof. P. E. Chaudhari who have taken keen interest in undertaking this research work at MIT College of Engineering. They provided all the necessary support. I thank Mr. Hemant Apte and Mr. H.V. Abhyankar from Sharp Techno Systems, Sangli for fabrication of the test facility; Mr. P. P. Kamat, CEO and Mr. R. C. Chikurde, Principle
Analyst, Mahindra Engineering Services, Pune for providing training on FLUENT software.

I am thankful to Prof. Dr. S. M. Gadgil, Prof. Dr. A. G. Marathe, Prof. Dr. Mrs. S. S. Sane, Prof. Dr. R. L. Edlabadkar, Prof. Dr. Mrs. J. P. Shete, Mr. S. S. Kore, Prof. S. M. Nakate, Mr. S. P. Wadkar, Prof. D. B. Dandge, Prof. A. R. Deshpande, Prof. A. K. Bewoor, and Prof. A.R. Mache for their timely help. Special thanks are due to the faculty members and staff of Mechanical Engineering Department of MITCoE, Prof. S.S. Hirmukhe, and Mr. A. P. Aundhkar who have provided all the support throughout the project period. I thank all my friends and students who helped me for the completion of this project.

This work could be done because of the importance of learning imbibed on my mind by my father Prof. V. B. Dingare and mother Late Mrs. J. V. Dingare. I am indebted to my in-laws Mr. N. P. Mandke and Late Mrs. S. N. Mandke for their blessings.

My wife, Mrs. Richa Dingare, and daughter Ms. Vaidehi provided constant support and all the necessary help.

I would like to thank all whose direct and indirect support helped me completing my thesis in time.

Mr. S. V. Dingare
