ACKNOWLEDGEMENTS

First and foremost, I would like to thank my guide Prof. Dr. G. V. Parishwad for his invaluable guidance, encouragement, and support during the course of my research. The dedication and concern that Dr. Parishwad exhibits towards his students is truly rare and appreciable. I am very fortunate to do my research with him. Without his expertise, many hurdles would not have been overcome. I am grateful to him for introducing me to the challenging area of electronic cooling.

I also express my gratitude to Prof. Dr. A. D. Sahadrabudde, Director, College of Engineering Pune for providing research opportunity and encouraging me at every moment. I also want to give my appreciation to the review committee members, Prof. S. N. Sapali (Head Mechanical Engineering.), Prof. M.R.Nandgaonkar (Associate Professor, Mechanical Engineering.) and Prof. (Mrs.) N. R. Rajhans (Professor, Production Engineering.) for their encouragement and advice throughout the preparation of this thesis. I thank all my friends from all the departments of COEP. Special thanks go to Prof. C. M. Sewatkar with whom I had many important discussions during thesis writing. The successive accomplishment of this study should acknowledge the support from the project funded by my Institute and AICTE through the MODROB.

Turning to the personal side, I would like to thank my parents Mr. Kallappa Chougule and Mrs. Kamal for their unconditional support and encouragement to pursue my interests. Also my brothers and sister are my power of proceeding. Most importantly, I must thank my wife Mrs. Indrayani for her love, patience and support which adds a dimension to my life that no one else can, and son Mr. Pratik, who was so happy whenever he saw me coming back from the Institute.

I would like to express my deep gratitude and appreciation to all the people who made this research thesis possible. It is impossible to acknowledge everyone who has contributed to this research, but I would like to express my sincere gratitude to several people in particular.

Chougule N.K.
College of Engineering, Pune [COEP]
