ACKNOWLEDGEMENTS

First and foremost, I must thank God, who bestowed upon me His grace and gave me the inspiration and strength to accomplish the present work successfully.

I am grateful to the University Grant Commission (UGC), New Delhi, Government of India, for the award of UGC Research Fellowship (Award No-AUK-204/12/2004/7816-66).

I am really thankful to my supervisor Dr. Sanjib Kumar Panda, Associate Professor, Department of Life Sciences, Assam Central University for his cooperation throughout the research work. It was really an experience for me working under him.

I express my sincere and profound gratitude to respected Prof. G.D. Sharma, Dean, School of Life Sciences, Prof. A.K. Das, Head, Department of Ecology and Environmental Science and Prof. B.K. Dutta, Dean, School of Environmental Sciences for their cordial attitude during the first phase of my research work.

I express my deep sense of regards to Mr. J. Goala, L. Teron and A.K. Mandal, of Department of Life Science who extended all kind of help and support during the course of my research work.

I have no words to express my love and respect for my parents, my brothers and sisters, who constantly encouraged, inspired, prayed and provided me the necessary facilities needed for completing this work.

I want to thank Mr. Ratnabir Singha, B. Rajkumar, S. Himika, and M. Dey, Department of Life Science, Assam Central University, for their full co-operation in sample collections.

Lastly my special thanks go to my elder brother, Mr. Ramu Upadhyay for being there for me always.
