ACKNOWLEDGEMENT

With deep sense of veneration, the author express his sincere gratitude to his supervisor Dr. D. Kar, Professor, Department of Life Science, Assam University, Silchar, for his valuable guidance, constant support and encouragement without which this work would not have been completed.

The author express his esteemed sense of gratitude to Dr. B. K. Dutta, Co-supervisor, Professor and Head, Department of Ecology and Environmental Science, Assam University, Silchar, for his valuable suggestion, motivation and critical comments of the thesis helped to a great extent to complete this degree programme.

The author offers his deep sense of gratitude and heartful thanks to Dr. B. R. Shome, Co-supervisor, Senior Scientist, PD ADMAS, Hebbal, Bangalore, for inspiring guidance, encouragement, valuable suggestions, immense patience, freedom to work, generous forbearance and support throughout the study period.

The author is extremely indebted to Dr. K. M. Bujarbaruah, Director, Indian Council for Agricultural Research Complex for NEH Region, Umroi road, Umiam, Meghalaya for the kind permission given to get the work done jointly in Assam University, Silchar (AUS) and ICAR Research Complex, Umiam, Meghalaya and for providing all facilities needed for this degree programme.

The author is extremely thankful to The Vice Chancellor, Assam University, Silchar, for his great co-operation and help rendered during the study period.

The author is much obligated to Dr. (Mrs) Rajeshwari Shome, Senior Scientist, PD ADMAS, Hebbal, Bangalore, for her kind support and help in bacterial isolation and identification, constructive criticism and suggestions throughout the study period.

The author express heartful thanks to Dr. G. D. Sharma, Professor and Dean, School of Life Science, Assam University, Silchar and Dr. S. Giri, Head, Department of Life Science, Assam University, Silchar, for their valuable suggestions and support.

The author places on record of his profound thanks to Dr. M. Dutta
Choudhury, lecturer, Department of Life Science, Assam University, Silchar, for his valuable guidance, constant encouragement, inspiration and technical support at various times.

The author feels proud to have supportive companionship of Mr. Arunava Das, Ph.D. Scholar, Department of Life Science, Assam University, Silchar, for his tireless co-operation, constant motivation and kind help rendered throughout the degree programme.

The author is also extremely grateful to Dr. S. K. Panda, Dr. M. Bawri, Dr. B. K. Tiwari and Miss S. Das, Faculty, Department of Life Science, Assam University, Silchar, for their kind help and support throughout the study period.

The author is highly grateful and expresses his deep sense of gratitude to Dr. H. Rahman, Joint Director, Indian Council of Agricultural Research, Sikkim Centre, Tadong, Sikkim, Dr. A. K. Tyagi, Senior Scientist, Division of Animal Health, ICAR Research Complex for NEH Region, Umiam, Meghalaya and Dr. H. V. Murugkar, Senior Scientist, High Security Animal Disease Laboratory, Bhopal, for their support and help for the present study.

The author is extremely thankful to Dr. S. Dey, Scientific officer, Regional sophisticated Instumentation centre, North Eastern Hill University, Bijni Complex, Shillong, Meghalaya, for his great co-operation and help rendered during the electron microscopy study.

The author feels extremely fortunate to get considerable help from Dr. (Mrs.) Suguna Rao, Associate Professor, Department of Veterinary Pathology, Veterinary College, University of Agricultural Sciences, Bangalore for her co-operation and kind help for interpretation and analysis of Scanning Electron Microscopy.

The author is extremely thankful to Dr. S. Banerjee, Senior Scientist and Dr. (Mrs) P. Devi, Research associate, Division of Veterinary parasitology, ICAR Research Complex for NEH Region, Umiam, Meghalaya, for their great co-operation and help rendered during protein purification study.

The author acknowledges the sincere co-operation, constant motivation and kind support of Dr. A. K. Pattanayak, Principal Scientist and Head, Division of plant breeding and biotechnology and Dr. R. K. Bordoloi,
Principal Scientist and Head, Division of Animal Reproduction, ICAR Research Complex for NEH Region, Umiam, Meghalaya, for their helping nature in various stages during the study period.

The author express his sincere gratitude to Dr. K. Prabhudas, Director, Project Directorate on Animal Disease Monitoring and Surveillance (PD_ADMAS), Hebbal, Bangalore, for allowing him to perform some software analysis in his esteemed Institute.

The author places on record of his profound thanks to Dr. G. S. Desai, Senior Scientist, Dr. S. S. Patil, Senior Scientist and Dr. S. Bhurey, Scientist, PD_ADMAS, Hebbal, Bangalore, for their kind support and help during sequence analysis.

The author feels glad to acknowledge the help rendered by Mr. R. Chakraborty (Technical assistant), Mr. J. Lyngdoh (Technical assistant), Regional sophisticated Instumentation centre, North Eastern Hill University, Bijni Complex, Shillong, Meghalaya, for sample preparation during the electron microscopy study.

The author express very glad to acknowledge his colleagues Dr. S. Mukherjee, Miss. Ramie H. Begum, Dr. Babita L. Devi, Miss. Anjana Rizal and Mrs. G. Barman for their warm companionship and helping hands at times.

The author’s sincere thanks to Mr. K. K. Dutta, Mr. L. Srivastav, Mr. R. Bayashya and Mr. M. Bayashya, for their co-operation and kind help during his stay in ICAR guest house, Umiam, Meghalaya, throughout his degree programme.

The author gratefully acknowledge sincere co-operation, constant help and timely support of Mr. Deepak Kumar Dey, UDC, Academic section, Assam University, Silchar, for his support at various times.

The author’s special thanks to technical assistants, Mr. G. Basumatari, Mr. K. Kharpuri and laboratory assistants, Mr. G. Das, Mr. P. Boro, Kong Trashiban, Kong Elinda, Kong Rumila, Mrs. Lisa, Mr. Harinder and others of Division of Animal Health, ICAR Research Complex, Umiam, Meghalaya for their help throughout the study period.

The author’s special thanks and indebtedness to Mr. Khairuzzaman
Laskar, M A, B Ed, Assistant Teacher, Chincoorie Bagan High School, Silchar, for his tireless co-operation and support during the study.

The author is extremely thankful to the Librarians of Assam University, Silchar and ICAR Research Complex for NEH Region, Umiam, Meghalaya, for their constant support, co-operation and help in utilizing library facilities required for this degree programme.

The author’s sincere thanks to Chief Warden, Veterinary College hostel, University of Agricultural Sciences, Bangalore for his co-operation and kind help in providing accommodation during compilation of his thesis work.

The author is extremely thankful to Mr. Shantanu Biswas (Pappu), Cyber link, Radha madhav Road, Silchar, Assam for his tireless support and help in editing and printing of this thesis.

The author is extremely thankful to Mr. Amitava Das and family, Mr. Rathindra Roy and family for their moral support and help during various stages of this degree programme.

The author owes all his success to his beloved parents Mr. Shamsul Hoque Mazumder, Mrs. Jamseda Begum Mazumder, brother Mr. Zakaria Mazumder, sister-in-law Mrs. Tahera Sultana Mazumder, sister Mrs. Samima Karim, brother-in-law Mr. Mainul Karim, other close relatives, whose affection, unfailing patience, sacrifices and moral support has led to completion of his programme.

The author extends thanks to all those who directly or indirectly helped him during his study.

Finally, the author thanks all his well wishers.

Yahya Mazumder
