ACKNOWLEDGEMENT

I express my deep sense of reverence and gratitude to my esteemed supervisor, Dr. G.P. Dutta, Ph.D., D.Sc. for suggesting me the present line of research. I am grateful to him for his perpetual guidance, constant inspiration and constructive criticism during the course of present investigations.

I gratefully acknowledge my sincerest indebtedness to Dr. Nitya Nand, FNA, Director, Central Drug Research Institute, Lucknow for providing me all the necessary research facilities.

I wish to place on record my sincerest gratitude to Dr. S.S. Agarwal, M.D.B.S. (Hons.), M.D. (Hons.), FRCP(C), who has been closely associated throughout the course of present studies and has given several fruitful suggestions.

I owe my cordial thanks to Dr. Pawan Sharma, M.Sc. (Hons. School), Ph.D. for his invaluable suggestions rendered to me from time to time for the accomplishment of present research work.

I would be failing in my duty if I do not seize this opportunity to express my sense of gratitude to all of my friends and colleagues for their readiness to help me at every moment during the present studies.

I am also deeply thankful to my wife, Geeta, for her constant support and cooperation throughout my studies.
Thanks are also due to the Director-General, Indian Council of Medical Research, New Delhi, for the award of a research fellowship under an ICMR Project entitled "Comparative evaluation of EIA (Enzyme immunoassay), IHA (indirect haemagglutination assay) and IFA (indirect fluorescent antibody assay) on serodiagnosis of human malaria".

Above all, I thank all the patients and volunteers who cheerfully withstood all the procedures and made this study possible.

Amar Nath
