Ph.D. Thesis Entitled

“Development of new technique for making transport protocols robust to corruption based loss to improve TCP performance over wireless networks with lossy channels by discriminating congestion losses from wireless losses”

Submitted To: Kadi Sarva Vishwavidyalaya, Gandhinagar, Gujarat, India.

Faculty: Engineering & Technology

Subject: Electronics & Communication

Research Student: Rahul Mehta

Research Guide: Dr. C. H. Vithalani

Registration No.: 09D0146

Date of Registration: 10/07/2009
