“I seem to have been only like a boy playing on the seashore, and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me.”

- Sir Isaac Newton
Acknowledgements

Interdependence is a higher value than independence. The present work was possible only because of the efforts of various people who contributed to it in some form.

At the very outset I take an opportunity to express my feelings regarding the mentorship I have received from my research supervisor, Dr. (Mrs.) Kalpana H. Mody. During my entire work her role has been pivotal right from the conceptualisation of the work, planning experiments, troubleshooting, and interpreting the data meaningfully. All these years under her guidance, I have learned many essential elements to work effectively.

I am grateful to Prof. Bhavanath Jha, DC, MBE and Dr. P. K. Ghosh, Director of this institute for encouragements and providing me essential lab facilities.

I am grateful to CSIR HRDG for awarding Senior Research Fellowship and financial assistance to complete my tenure effectively leading to this degree and financial assistance.

The support and cooperation of various people was very crucial for the accomplishment of present work. I am grateful to Dr. Soumya Haldar for teaching me MEGA analysis and for the productive discussion on identification based aspects and Mr. Harshad Brahmbhatt for his extensive support in planning bioremediation experiments and performing their analysis using GC-MS ad HPLC analysis.

I am grateful to the CSMCRI family: Director Secretariat, Recruitment Section, Finance and Accounts Section, Stores and Purchase Section, IT Department, Canteen Staff, Hostel Committee, Security Section, Library Staff, Planning Cell, Vigilance Cell, Gardners, Sweepers, and staff from carpentry section, electrical section, mechanical section, refrigeration section and plumbing section.
I express my gratitude towards the staff of Bhavnagar University, especially Registrar, Vice-Chancellor, Mr. Chandrang Desai and Mr. Arif for PhD registration and related work.

There have been many people in the CSMCRI, interacting with whom have always helped me look ahead in some better way. The list includes: Mr. B. M. Shah and Dr. G. S. Trivedi.

I have special affection for the Marine Environment group where I learnt to walk. I express my warm regards for all scientists which include: Dr. (Mrs.) K. H. Mody, Dr P. M. Gaur, Dr. R. B. Thorat, Dr. S. Basha, Dr. R. H. Trivedi, Dr. Vaibhav Mantri and Dr. S. K. Mukhopadhyay. It was always fun to be with friends like Nisha Anand, Jairaj Jhala, Gopalakrishnan, Shalin Desai, Himal Dave and Kalpesh Vakani. The time I have spent with the Marine Environment group shall always remain etched in my memory.

The support I received from my lab friends has always helped me do things effectively. These includes: Yasmin ben, Atindra bhai, Anita ben, Niraj, Jay, Rakesh, Ankita, Devang, Yogesh, Nidhi, Krishnakant, and Vinod. Mehta bhai have always ensured to keep lab in the best place to work. I am thankful to trainee student Aakanksha Gohil.

At many instances, various friends in different labs have contributed to keep my work going. These includes: Jitendra Kesri for 16S rRNA based gene sequencing, Manoj Gupta, Vishal Gupta and Ravindra Pal Singh for PAGE analysis.

All these years have been not so easy to grow. I am indebted to my entire family: my both parents, two brothers and my wife who supported me in entirety. Without their unconditional love it would have never been possible to make it. I am lucky to have my wife, Aditi as my best buddy standing by me like a rock in all times, good and bad. She is my strength.
I express my sincere regards for Sr. Fatima, who have been like a mother to me. Her belief in me kept me going in tough times of life.

I am thankful to all those whose name I couldn’t mention but their faith in me and their affection have always helped me. For all prayers which kept me going..

And finally I thank God for everything he has given to me. Just no words, can feel His presence in my life.
