Acknowledgements

I humbly myself with reverence before the grace and glory of Almighty for blessing me with wisdom, knowledge and good health throughout the study period.

I inscribe my profound gratitude to my guide Dr. Govindaiah, Professor, Department of Sericulture, Bangalore University, Bangalore for his invaluable guidance, constant encouragement and sheer perseverance throughout the course of the investigation.

I am very much grateful to the Central Silk Board (Ministry of Textiles – Govt. of India), Bangalore for permitting me to accomplish my work in the Mulberry Pathology laboratory of Central Sericultural Research and Training Institute, Mysore. I express my deep sense of gratitude to Dr. S. B. Dandin, Director, CSR&TI, Mysore for providing the necessary facilities to carry out the present study.

I show my gratitude to the chairperson of the Department of Applied Botany, University of Mysore, Mysore for his co-operation.

I wish to express my sincere thanks to Dr. V. Rajagopal, Retired Director, CPCRI, Kasaragod and Dr. Jayaram, Director, Central Coffee Research Institute, Balehonnur, Chickmagalur for their co-operation during the study.

Dr. Mala V. Rajan, Deputy Director, CSR&TI, Mysore, has been constantly encouraging me during the course of the work. I register my immense thanks to her. Words sound too poor in expressing my hearts gratefulness to Dr. D. D. Sharma, Senior Research Officer, CSR&TI, Mysore for his skillful guidance and sacrifice from the first hour to the last hour of my research programme. I also profusely thank Sri N. B. Chowdary, SRO, Sri K. J. Ramaswamy and Sri S. Revanna, Technical Assistants, Mulberry Pathology, CSR&TI, Mysore for the help rendered by them during the course of my work.

Dr. Rohini Iyer and Dr. R. D. Iyer, Retired Principal Scientists, Central Plantation Crops Research Institute, Kasaragod for their encouragement, constant support and valuable advice given time to time during the course of my study.

On this occasion, I remember Smt M. Rekha, Assistant Director, CSR&TI, Mysore for the help rendered by her during statistical analysis. At this moment, I cannot forget the help rendered by my friend Ms. K. K. Sharmila, SRO, Silkworm Genetics, CSR&TI, Mysore who has been continuously trying to keep my spirits up.
I express my sincere thanks to library staff of CSR&TI, Mysore for providing library facilities to carry out the work.

Nothing of significance could have been accomplished without the acts of assistance, words of encouragement and the gestures of helpfulness from other members of the society. This work of mine is no exception. I do not think one can efficiently put one’s heartful emotions into words. It becomes more difficult for a person like me who is not endowed with this art. Whatever I write can only be a minute reflection of the kind of feelings I have in my heart at this moment of time.

Finally, I am thankful to all my colleagues and friends who have helped me directly or indirectly in this juncture.

I specially place on my record my deep sense of appreciation to my beloved parents Sri V. Vittal Naik and Smt Lalitha V. Naik and my brothers Sri V. Srinath Naik and Sri V. Sanath Kumar Naik who have been a constant source of inspiration throughout the course of this work. Without their co-operation, moral support, successful completion of this work could not have been possible. I am indebted to them.

[V. Nishitha Naik]
