ACKNOWLEDGEMENT

It is not easy for me to render the gratitude of my heart which has its own characteristic genius. The language of my heart conveys thought as well as feeling. It falls short of its full power and purpose, if it fails to communicate the emotion as fully as it conveys idea. Therefore, I am afraid that it has not been possible for me to translate it into the verbal language with the same richness of melody, the warmth of spirit to my Guide Dr. K. Basavaiah for his admirable statement of the aims, attention, encouragement and constant support towards my work always and in all the ways.

He needs no introduction, beloved of all men, women and scholars irrespective of country, state, colour, religion or position. Whenever and wherever I sought his help, he himself comes forward for caring and sharing, for constructing the research work. I thank Prof. K. Rangappa, Chairman, Department of Chemistry, for his existence as reality in this unreal world.

I wish to express my heartful thanks to former Chairpersons, Prof. Rangaswamy and Prof. Syed Akheel Ahmed for their encouragement.

There are many people who take always an active role in creating something new in their field. These are the guiding souls who have created a new field for me. It was really a joy to work and seek guidance whenever required with each of the following great guiding souls Dr. P. Nagaraj, Dr. K. M. Lokanatha Rai, Dr. Y. B. Basavaraju, Dr. S. Ananda and Dr. H. D. Revannasiddappa.
I have not seen the beauty of gratefulness, but whenever I see my colleagues who are so grateful, I feel full great full. I wish to express my gratefulness to U. R. Anil Kumar, U. Chandrashekar, P. Nagegowda, Somashekara and J. Manjunath Swamy for their help in everything.

All fears drop, Insecurities drop, I get such a deep rest. You know there is some power, someone, who is caring for me, not just someone; there is ONE caring for me and taking care. It is my Mysore University. I am very thankful to the University of Mysore, Manasagangotri, Mysore, its campus and the environment for providing me fellowship and the adequate research facilities.

I am very please to greet Dr. B. M. Mohan, Director, Forensic Science Laboratory, Bangalore, C. M. Mahadevaiah, P. Mallesh, P. R. Jayaramu and C. Manjappa for their co-operation and motivation.

I sincerely thank Dr. K. V. Smt. Sredevi, lecturer, ASMV, Mysore and Mr. A. Azeez, HOD of Physics, MPS, Mysore for going through the manuscript and offering constructive suggestions.
I wish to express my heartfelt gratitude to myself, my visionary parents and beloved friends M. Kumudarani and Vijayalaxmi to have me as a scholar in science and above all very good women.

And finally, I wish to place on record, my sincere appreciation of the service rendered by Mr. S. Ramesh Kumar and Mr. Chandrashekar of Biblio Stat's Touch, Mysore, for the excellent work done in bringing the cover page.

Last but not least I extend my deep sense of thankfulness to all who helped me directly or indirectly in completing the research work.

(Prameela H. C.)
