**ACKNOWLEDGEMENT**

_Self-reliance is admirable. Recognizing what other people contribute to your happiness is priceless._ – Stephanie Dowrick.

In my journey through the Ph. D. programme, there are many who deserve a place here. Some I name, and others, I thank in anonymity.

Firstly, I would like to express my sincere gratitude and immense respect to my mentor, Dr. Mazahar Farooqui, In Charge, Post Graduate & Research Centre, Maulana Azad College, Aurangabad for accepting me as his student and who made this project a success. It is his enthusiasm and integral view on research combined with his willingness to provide quality chemistry. He taught me the art of research, through continuous encouragement, gentle behavior, and uninviting supervision, constructive criticism throughout the investigation and for his painstaking efforts in preparation of this thesis. Working under him has been a great experience and rare privilege to be remembered invidibly.

It is a pleasure to record my respectful thanks to Dr. Noel D’souza, Ex-Director, Wockhardt Research Centre, Aurangabad, Dr. Mahesh V. Patel, Director, Wockhardt Research Centre, Aurangabad and Dr. Bharat Trivedi, Chief Scientific Officer and the **WOCKHARDT RESEARCH CENTRE** for giving me an opportunity to work in exceptional facilities in an extremely stimulating research ambience.

I am deeply indebted to Dr. Milind Sindkhedkar and Dr. P. K. Deshpande for introducing me to the fascinating field of research. Words would be inadequate to express my sincere gratitude for the help and support provided by them during this project. I am sincerely thankful to them.

I wish to render heartfelt thanks to Dr. Vijaya Desai, Dr. Patil, and Dr. Bhavsar for their timely help and never ending encouragement.

Special thanks to my friend, Dr. Sanjay Toshniwal for your sincere friendship, immense help and everything you have done for me during this journey.

I am sincerely thankful to Dr. Maqdoom Farooqui, Principal, Maulana Azad College, Aurangabad for providing valuable support while utilizing the college facilities.
The work would not have been complete without the help provided by the biology and analytical groups. My sincere thanks to Dr. Sachin Bhagwat Ms. Jyotsana Chauhan, Nikhil Sathe, and P. Hariharan for undertaking the *in-vitro* antibacterial evaluations of the synthesized compounds.

I am thankful to Dr. C. R. Patil and his crew at R. C. Patel College of Pharmacy, Shirpur for carrying out the pharmacological evaluation of the synthesized compounds.

I would like to thank Chandraprakash, Ganesh, Safa, Vipul, Kiran, Manish, and Shivaji for recording the NMR, Mass and IR spectra.

I wish to acknowledge the support and co-operation of my friends DR. GULHANE, Dr. Loriya, Rahul, SANTOSH, Rajesh Kale, Ganesh, SANJAY, Shivaji, Sunil and every member of New Drug Discovery chemistry lab. I will always treasure the friendship and times that we had together. Times of discussion, laughter, crisis, enthusiasm and positive attitude towards science, and topics which strayed rather far from science but brought us together as a group. (We are simply the best)

I am thankful to Mr. Sachin Deshmukh for his valuable support in managing the computer related issues during the thesis preparation.

There are no words to pay regards to Pappa and Bai, who sacrificed a lot for my welfare and brought me up to this esteemed stage, formed part of dreams and taught me the good things that really matter in life. I would like to express a deep sense appreciation for my in-laws. Thanks for your blessings through constant prayers and strength.

My deepest gratitude is reserved for my spouse Mamata, whose patience and understanding I am very grateful for. Without your constant help, care, loving nature, and support completion of the thesis would not have been easier. Additional energy and vitality for this research was also provided externally through love and cheerfulness of my loving sons, Sanskar and Smit.

Many regards to my brother, sister, bhabhi and every member of my family for their constant support and blessings.

RAJESH BORA
