Completing a PhD is truly a marathon event, and I would not have been able to complete this journey without the aid and support of countless people who was with me with help whenever I approached them.

It gives an immense pleasure to express my deep sense of gratitude and respect to my guide, Dr. Ram S. Shukla, Sr. Principal Scientist, Discipline of Inorganic Materials and Catalysis (DIMC), Central Salt and Marine Chemicals Research Institute (CSMCRI) whose expertise, understanding, and patience, added considerably to my PhD experience. He always took me through the fundamentals of catalysis and kinetics which ignited me to think on the problem and to find exact solutions. He managed to teach me how to work independently (which is very important), but at any time, his useful advice was available to me. It is a real pleasure to work and communicate with such a polite, honest and open-minded person. I would also like to acknowledge his language capabilities which were extremely useful, particularly in the beginning of my work and life in CSMCRI.
