ACKNOWLEDGMENT

This is the most cheerful and blissful moment of my life, to thank all the angels of God, who contributed immensely with their helping hands to conclude this Ph.D thesis. I start with almighty, Thankyou “Maa”, “Jai Maa Durga”.

A great word of thanks for my mentor, and Guru Dr Indu Pal Kaur, Professor, of Pharmaceutics, University Institute of Pharmaceutical Sciences, Panjab University, Chandigarh. She is a great teacher, scientist, researcher, and the best Guide one can ever dream for, and above all a superb human being. Mam you are the best teacher of this world. Thanks a lot for teaching me science and research. You always gave me inspiration, strength, confidence and motivation to give my 120 percent in the assigned tasks. I will carry this learning along mam. You are really an institution within yourself. Thanks a lot mam.

A sincere thanks to Professor Kanwaljit Chopra for all the kind words and support.

I wish to thank Professor V.R.Sinha, Chairman, University Institute of Pharmaceutical Sciences, for providing excellent and very cordial working environment that gave impetus to my research project. Thanks a lot sir. I am also very thankful to our exchairperson Professor Karan Vasisht and Professor Maninder Karan for their valuable suggestions and support during my research work.

My thanks are extended to faculty of the Pharmaceutics, especially Professor O.P. Katare, Professor B.S. Bhoop, Professor Shishu, Dr Vandita Kakkar and Dr Amita Sarwal and all the faculty members of U.I.P.S, Panjab University for their concern, encouragement, support and above all, the much needed and valued suggestions.

I also pay my obituary to Late Professor P.D. Sharma at this point of time. I recall the moments when I joined U.I.P.S for my post graduation and whenever I met him, he would always inspired me to join Ph.D. I also pay my obituary to Late Mr. Shadilalji at this point of time.

A sincere word of thanks to Mr Dinesh Singla (Vice-President, Panacea Biotec, Lalru, Punjab) for his immense support, incredible perseverance and illuminating guidance for successful completion of my research work. Thanks a lot sir.

A special word of thanks to Dr Sukhjeet Singh (Sr Vice-President, Panacea Biotec, Lalru, Punjab) and the facilities provided by Panacea Biotec, Ltd. to conduct all my analytical studies under their supervision. A heartfelt thanks to the BioARD

group, especially Mr Sudhir Sahwney, Dr Anurag Singh Chauhan, Mr Gagandeep Singh, Mr Manoj Bhola and Mr Vikas. Without their assistance it would not have been possible for me to perform the bioanalytical studies.

I am also thankful to Dr Vidyasagar uncle (Director DRDO), Puja masi, Dr Anil K Mishra and Mrs Krishna Chuttani, for providing me the facilities to work at INMAS, New Delhi to perform my biodistribution and gamma scintigraphy studies.

I am indebted to many student colleagues for providing a stimulating and fun environment to learn and grow. I am especially grateful to my juniors, Mandeeep and Gaurav Sharma, a special thanks to both of you; you were always there when I needed you the most. Thanks for being great friends. A special thanks to Harinder, Parneet, Simar and Ranjana for kind support and encouraging words during my research. I am also thankful to Dr Rohit Bhandari, Monika, Shilpa, Pramod, Keshav, Neha, Vandana, Sahil, Richi, Gaurav, Ikshita, Harman, for their all time support whenever required. Thankyou all.

Words cannot express the love, synergy and moral boost provided by my mumma, papa and mataji, without their blessings, I could not have reached where I am. They provided me all the support to complete my Ph.D. Thankyou mumma, papa and mataji.

A mere word of thanks is inadequate for my dear wife Dr Vandita, who helped me a lot during my experimentation, and writing part. I am blessed to have you in my life dear. Thanks a lot for all the support and understanding.

I am thankful to Anju didi, dear Poonam, Gulshan jiju, Prashant jiju and sweet buds Gauri, Abha and Akshat, who were all time ready to help and motivate me to complete the task.

All and above its my kiddoss, Vaibhav and Eeshvi whose smile helped me to move out of the tensed environment during the experiments and tough times. Vaibhav’ s words were always motivating “Papa aapka thesis kab hoga, pls jaldi submit kardo thesis”. I love you a lot.

I am grateful to my loving and caring inlaws, mamma, papa, who stood behind me always wherever I needed their help. Thanks a lot papa and mumma for all your sacrifices for us. A very special thanks to my brother in law Daksh and sister in law.
Acknowledgment

Nirupika for all the kind and positive words. I also pay my obituary to our beloved mataji at this point of time.

I thank, Mrs Shushma, Ms Ranjeet Kaur, Mr Raj Kumar, (CPBES) Mr Pradeep Singh, Mr Devilal (DST Lab), Mrs Maninder Kaur, and Mr Mahesh, for their technical assistance during my experimental work. I owe special thanks to Mr Harvinder Singh for his timely help during my research.

Thanks are also due to the clerical, laboratory and technical staff of UIPS, especially, Mr Chaman, Mr Anil Kumar, Mr Buta Singh, Mr Swaroop Singh, Mr Sham Singh, and Mr Sahib Singh for their constant help and assistance. I also feel a sense of thankfulness towards the librarian especially Mr Priyadarshan and library staff of U.I.P.S, Mr Dayal for providing all the necessary books and the journals to aid my thesis work.

Financial grant received from DBT, New Delhi is highly acknowledged.

I pay homage to those experimental animals that sacrificed their lives in making my endeavour successful. May God grant them eternal peace and forgive me for the sin of killing them.

The expertise in this study belongs to those acknowledged above. All errors are mine.

Date: 20/1/9
