ACKNOWLEDGEMENT

Today with humility, misty eyes and folded hands when I am thanking Almighty in these blissful moments, I am also expressing my innermost into words. Research is an arduous task, which involves consistent and dedicated mind with regards to the strenuous and hard labour put into it. This would only be made possible with the benediction and grace of Almighty.

It is a moment of gratification and pride to look back with a sense of contentment at the long travelled path, to be able to recapture some of the fine moments, to be able to thank the infinite number of people, some who were with me from beginning, some who joined me at some stage during the journey, whose really round kindness, love and blessing has brought me to this day. I wish to thank each of them with all my heart.

I consider it my distinct honour and rare privilege to express my deepest sense of gratitude and indebtedness to my venerable supervisor, Dr. (Mrs.) Renu Chadha, Professor, University Institute of Pharmaceutical Sciences, Panjab University, Chandigarh for her unstinted help, continuous encouragement and invaluable guidance, constructive criticism, precious suggestions and benevolent attention and tireless efforts with out which it would not have been possible for me to execute this project successfully.

I wish to express my sincere thanks to Prof. Karan Vasisht, Chairman, University Institute of Pharmaceutical Sciences, Panjab University, Chandigarh for providing all the necessary infrastructure facilities required to carry out the project work. I also wish to express my sincere thanks to Prof. O.P. Kataria, former chairman, for his valuable guidance and encouragement.

I warmly acknowledge Dr. D.V.S. Jain, Professor Emeritus, Department of Chemistry, Panjab University, Chandigarh, for his valuable suggestion, help and guidance during course of work.
I owe my most sincere gratitude to Dr. Geeta Shukla, Reader, Department of Microbiology, Panjab University, Chandigarh, for her most valuable help in the evaluation of antimalarial activity of the prepared formulations.

I owe my most sincere gratitude to Dr. Evans Coutinho and Raghuvir R S Pissurlekar, Department of Pharmaceutical Chemistry, Bombay College of Pharmacy, Mumbai, for helping us in docking studies using.

I pay my sincere thanks to Ms. Ranjit Kaur (FTIR), Mr. Devi Lal and Mr. Pardeep (DSC) for their technical assistance throughout my course. I am also thankful to Mr. Ravinder, Mr. Kishori Lal, Mr. Shadi Lal, Mr. Sushil, Mr. Ramashankar and other laboratory staff. I am also grateful to Mr. Shyam Singh, Mr. Sahib Singh for helping me in animal studies. The work would not have reached the logical conclusion without the support of the instrumentation section of CIL, Panjab University, Chandigarh. The kind help of Mr. Jagtar Singh for XRD studies, Avtar Singh for NMR studies, Mohinder Singh for SEM and Mr. Ramesh Kumar for Mass spectral studies is duly acknowledged.

I also thanks to Mr. P.D. Chowdari (Deputy Librarian incharge) and his assistant Mr. Dayal Chand for providing extended support for referring in literature and thesis.

It would not have been possible to stand the thick and thin during the project without the help of my friends who not only provided the lighter moments but also helped in all ways they could, during the course of work. I would like to thank especially Astha, Vibha, Shruti, Rajinder, Mamta, Deepak, Anurag, Anupam, Swati, Poonam, Kiran, Preetkamal, Prerna, Rohit, Vandita, Puneet, Kesar, Honey, Saurabh, Basant, Amit, Disha, Rakesh, Pran, Lakshmi, Bala Kumar and Raj Kumar.

Very special words of thanks to I am also grateful to my juniors Drapan, Natsha, Kunal, Monika, Rekha, Somnath, Asish, Abhimanyu and Rohit for their invaluable support and help.
The financial support from ICMR, New Delhi, is gratefully acknowledged.

I am also thankful to IPCA Labs, Mumbai and Biochem Industries, Mumbai for providing the gift samples.

I owe to the moral support, sacrifices, support and encouragement they have showered on me. A stock of loving appreciation is reserved for my parents, elder brother Sushil, bhabhi Nidhi, sisters Archana and Meenakshi and brother-in laws Raj Kumar and Lucky ji for their extreme affection and love that will always remain close to my heart.

Last, but surely not the least, the most obvious, significant and undeniable contribution has been made by my In-laws who has always been there for me whenever I need them, the encouragement they give to keep me going and their love to empower me that never fails all the time. I can never forget to owe my sincere feelings of love and gratitude to my husband Ajay Gupta and my son Mohin for their love, patience, and understanding-they allowed me to spend most of the time on this thesis.

Date: 29/1/2011

(Sushma Rani)
