ACKNOWLEDGEMENTS

For presenting my little contribution to the already existing knowledge on 'Malaria chemotherapy', I deem it my pleasant privilege to place on record, my sincerest thanks and an esteemed sense of gratitude to:

Dr. G.P. Dutta, D.Sc., for his inspiring guidance and constructive criticism during the accomplishment of present work;

Dr. Nitya Nand, F.N.A., Director, Central Drug Research Institute, Lucknow for his keen interest in the present study and for providing the necessary laboratory facilities;

Dr. (Mrs.) Krishna Agarwal, Dr. (Mrs.) M. Kazim and Dr. Ram Gobind for their valuable help during the course of the present study;

Shri K.L. Gulati for his expert assistance in a number of ways;

all my friends and colleagues for their unflinching cooperation and valuable companionship;

Messrs. Roche Products Ltd., Basel and Messrs. American Cyanamide Company, New York for the supply of gift samples of Mefloquine hydrochloride and Minocycline hydrochloride respectively;

Council of Scientific and Industrial Research, New Delhi and the Director, Central Drug Research Institute, Lucknow for financial assistance in the form of Research Fellowship; and lastly, my parents for their sustained encouragement.
