ACKNOWLEDGEMENTS

Words are often too frail to express one's inward emotions of ineffable indebtedness. The same perplexity haunts inside me in expressing my inner feelings even though I fumble for them to articulate my heartfelt and sincere gratitude to all those who have been a source of my inspiration and been there for me and with me at every step.

To begin with, I would like to thank The Almighty for showering his blessings on me as nothing ever happens without his will. I owe my deepest sincere thankfulness to him who has given me the strength to work relentlessly in the right direction and blessed me with two loving mentors who have always been a source of inspiration.

It is a great privilege to express my sagacious sense of gratitude and admiration towards my esteemed venerable supervisors respected Dr. Maninder Saran, Associate Professor of Pharmacognosy, University Institute of Pharmaceutical sciences, Panjab University, Chandigarh and Prof Karan Vasisht, Professor of Pharmacognosy, University Institute of Pharmaceutical sciences, Panjab University, Chandigarh for their valuable constructive guidance, firm and clear convictions, meticulous efforts and persistent encouragement.

Mam has acted as a sounding board for me and thus I give her all credit for properly channelizing my thought process and findings. She has also motivated me to face problems with courage and helped me to achieve all the goals of my life.

I am eternally grateful to Sir also, for his guidance and support for the entire period of research work. He also made numerous constructive ideas, and pointed out errors and ambiguities.

I extend my sincere thanks to Prof. V. R. Sinha, Chairman, University Institute of Pharmaceutical Sciences, Panjab University. I am also thankful to former chairpersons Prof. O. P. Katare and Prof Karan Vasisht who allowed me to avail the department facilities.

I owe a special gratitude to Prof Anupam Sharma for his support and generous help.

I am also thankful to Prof Kanwaljit Chopra who helped me to complete my research work by allowing me to avail her lab facilities.
I wish to express my sincere thanks to Prof S. C. Bansal, Professor of Radiology, Postgraduate Institute of Medical Education & Research, Chandigarh, for providing me with necessary facilities for conducting X-rays of the animals.

I would like to acknowledge Dr. Narinder Singh Saini, Prof-cum-Head and Director CAFT, Department of Veterinary Surgery and Radiology, GADVASU, for the interpretation of rat X-rays and Dr. Pushpinder Singh Sidhu for helping me to complete my studies successfully.

I am deeply indebted to Dr. B. N. Datta, Pathologist, Medics Centre and Rubeea for all the help rendered by them.

Now I wish to thank Dr Amit Bhatia and Dr Jai Malik for their support, care, understanding and encouragement. I am also indebted to Dr Ashwani Bhatia and Dr Anurag for their timely support.

My sincere and special thanks are to Maninder mam at CPBES, Devi Lal, Ranjeet Kaur, Sushma mam and Pardeep of DST-FIST lab for helping me to carry out my research work and being so co-operative.

It’s my fortune to gratefully acknowledge the support of some special individuals. A journey is easier when you travel together. Interdependence is certainly more valuable than independence. I wish to thank whole-heartedly Nidhi and Prerna who was always there when I really needed. My thanks and appreciation also go to Disha for her support and care I received.

I would also like to thank Mahaveer, Ashish and Jatinder for their valuable suggestions and inspiring advices.

It is also a pleasure to mention my good friends, Neeta, Anupam Saini, Gaganpreet, Poonam, Balbir, Charanjeet, Jyoti, Priyanka Soni, Gagandeep, Deepti, Kunal, Pratibha, Anju and Navdeep Pahuja for their love, care, support and creating a pleasant atmosphere for me here. They were always beside me during the happy and hard moments to push me and motivate me. I am also thankful to my juniors Gajanand, Yachna, Jasleen, Neha, Disha, Neha Tenwar, Meenakshi, Abhinav, Chetan, Vikram, Mandeep, Priyanka (Ceutics), Minkal, Maninder, Deepak, Tania Pawar, Sabrin Dhillon, Rubeea, Monika and Nitika for their support and care.

I extend my deepest sense of indebtedness to my fellow mates, Kaisar, Saurabh, Harikesh, Basant, Lalit Machwal, Anil (Chemistry dept), Mehak (Chemistry dept), Sukhbir (Statistics dept), Pooja (Statistics dept), Vipin, Rajwinder,
Abhilasha, Mamta, Daman Ghai, Ramandeep and Shantanu who have helped me in carrying out my research work.

I also thank Mr PD Chaudhary, Librarian and Mr Dayal for their co-operation.

I am also thankful to the laboratory and technical staff for their assistance to complete this work. In this regard I am thankful to Mr. Sudesh Rana, Mr. Gurdev, Mr. Vinod, Mr. Dharamchand, Mr Chanchal, Mr. Sahib Singh, Mr. Mahesh, Mr. Ramdas, Mr. Rajinder, Mr. Sham, Mr Nikka and Mr. Avtar Singh. I wish to thank Usha mam, Jaspal, Indra mam, Chetman ji, Pushpa, Abhishek, and Sandeep for all their support. I am also grateful to the guards Vinod ji, Navjot Singh ji and joginder ji who really cared us during our early morning and late evening activity protocols.

I hope that sacrifices made by the innocent animals in the course of study will help in furthering the course of science. May god grant them eternal peace.

My sincere thanks goes to Anil bhaea for formatting my thesis and imparting it a very aesthetic appearance.

I would like to pay high regards and earnest sense of gratitude towards my parents and deepest sense of indebtedness to my brothers and my sister in law for their sincere encouragement and inspiration throughout my research work and lifting me uphill during this phase of life. They have always given me their unequivocal support for which my mere expression of thanks likewise does not suffice. The very thought of going back and meeting little angel Karambir, my nephew, after a tough day filled my heart with joy and made me fresh during my thesis write up; his presence has always been more than enough. Besides this, I thanks from the core of my heart to several people who have knowingly and unknowingly helped me in the successful completion of this project.

At last but not least I again acknowledge the Almighty, who extended his helping hand whenever I was in need, who has led me miraculously, giving me strength, courage, spirit, wisdom and resilience to work and to bring this endeavour to completion.
