ACKNOWLEDGEMENT

It will always be a matter of pride and honour for me to be a student of University Institute of Pharmaceutical Sciences, Panjab University, Chandigarh.

Gratitude is seldom expressed in words towards the submission of this dissertation. I would seize the opportunity to acknowledge my deep sense of gratitude towards all those who extended their kind help in fulfilling this endeavor.

With all my inexpressible gratitude, I dedicate my work to the Almighty who has given me strength to live and accomplish my dreams. Words are inadequate to express my gratitude to my parents for they are my never ending source of love, support and inspiration. Sincere thanks to them for trusting me, always I remain indebted to them.

It is my great privilege to express my deep sense of gratitude and immense respect to my teacher and supervisor, Professor S.K. Kulkarni, Emeritus Professor of Pharmacology, University Institute of Pharmaceutical Sciences (UIPS), Panjab University, Chandigarh for introducing me to a real world of research. His innovative ideas, critical assessment, meticulous methodology, cordial guidance and continuous encouragement made it possible for me to bring the work into the present shape.

I am grateful to my supervisor Dr. Anil Kumar, Associate Professor of Pharmacology, University Institute of Pharmaceutical Sciences, Panjab
University, Chandigarh who has always been a great source of inspiration for me and a model for young researchers.

I express my sincere gratitude to Professor V. R. Sinha, Chairman, UIPS, Panjab University, Chandigarh providing the laboratory facilities to complete my work successfully.

I also thankful to Professor Karan Vasisht, Ex-Chairman, UIPS, Panjab University, Chandigarh for providing the best laboratory facilities to complete my work successfully.

I am also thankful to my teacher Dr. Kanwaljit Chopra, Professor of Pharmacology for her generous help and precious suggestions.

I would like to express my sincere thanks and appreciation to Dr. Sameer Sharma, Dr. Mahender Bishnoi, Dr. Anurag Kuhad and Dr. Kiran Akula for their timely suggestions and ideas.

I am also thankful to the Pharmacology laboratory staff: Mr. Rajinder Singh, Mr. Sham Singh, Mr. Jagsohan and Mr. Sahib Singh for their help during the course of study.

Mere words cannot enunciate my gratitude, love and affection towards my dear friends Dr. Hitesh, Ankur, Sandeep, Mudit, Saurabh, Harikesh, Sunny, Ruchita for their love, cheerful companionship and moral support. I am also thankful to my colleagues: Vaibhav, Atish, Vinod and Vipin for their support.

Let us be Grateful to people who make us happy............... 

They are the charming gardeners who make our souls blossom

My vocabulary knows no words to acknowledge the highly encouraging and loving support, selfless sacrifices and valuable guidance that I received
from my parents, my wife Smriti, my in-laws, Dr. Divya and my family. I owe all my success to these epitomes of love and affection who always showered their blessings, love and goodness upon me & who suffered silently in the hope that this project sees the light of the day.

However, above all I thank 'God' for his grace & kind light that he has always shown on me as I moved through this venture. I owe a lifelong indebtedness to Him.

Last but not the least, there are no words to pay obeisance to my experimental animals.
