ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my guide Dr. N. B. Ramachandra, Ph.D., Reader, Department of Studies in Zoology, University of Mysore, for introducing me to this fascinating field of "HUMAN CYTOGENETICS". His patience, keen interest in the progress of my research work and readiness with which he entered into discussions has been instrumental in the successful completion of my thesis work. I am also grateful to him for his encouragement, for having faith in me and providing me with a free hand to experiment and analyze.

I am grateful to Prof. H. A. Ranganath, Ph.D., F.A.Sc., F.N.A., F.N.A.Sc., Drosophila stock centre, Department of Studies in Zoology, Manasagangotri, Mysore, presently Vice Chancellor, Bangalore University for his constant encouragement throughout my research work.

I am thankful to Prof. S.N. Hegde Ph.D., Chairman, and the successive Chairmen of the Department of Studies in Zoology, Manasagangotri, Mysore, Prof. Prakash R. Naik, Ph.D., Prof. H. A. Ranganath, Ph.D., F.A.Sc., F.N.A., F.N.A.Sc., Prof. Sadanand Yamakanamaradi Ph.D., and authorities of DOS in Zoology, for providing facilities throughout my work and to all my teachers in the Department of Studies in Zoology, Manasagangotri, Mysore, for their encouragement and advice.

I thank Prof. S. M. Yamakanamaradi and Prof. S. N. Hegde, present and former Chairmen of Board of Studies in Zoology and also thankful to the colloquium and Doctoral committee members for their suggestions and advice. I wish to thank Department of Science and Technology for providing FIST grants to our department to create infrastructure.

I thank profusely Dr. B.Krishnamurthy, Dr.M.R. Savitha, Dr. Majumdhar and Dr. Sarala, Cheluvambha Hospital Mysore, Dr.D. Narayanappa, Dr. Ravi, J.S.S Hospital Mysore and Dr. Ravi Narayan, Dr. Panchashkaraiiah, Mission Hospital Mysore and all the MD and PG students of the these hospitals for providing me the
cases and the blood samples for my study. I am highly thankful to all my patients and their relatives for their cooperation in this study. I thank Dr. Basavaraj, and his office staff, University health centre, University of Mysore Manasagangothri, Mysore for his help in drawing blood samples.

I wish to thank Prof. Mewa Singh, Dr. Ravi, Dr. Armita Ravi, and Dr. H.N. Yajurvedi, University of Mysore helped me to carry out statistical analysis for my work. I am grateful to the referees and also Dr. Bendix Carstensen, for statistical advice of our paper whose comments are valuable to formulate this thesis.

I wish to thank Smitha R, Pushpa Saviour, Sajesh, Madhuranath, Harsha, Shilpa, Aruna, Ivan Arrahna and all other research colleagues and friends in the Department of Studies in Zoology, Manasagangothri, Mysore. I also thank Dr. Nagaraj, USA and Dr. G. Mahesh, USA for their cooperation during the research work by providing related research articles.

This thesis has been the fulfillment of the hopes of my parents, my husband, my brother and my sister-in-law and my son B.S. Chandrashekar for their love and encouragement. Most importantly, my sincere thanks to my guide's family members for their patience and encouragement to complete this thesis.

I thank one and all who have been directly or indirectly involved in making this research work, to be completed successfully.

S.S. Malini
