ACKNOWLEDGEMENTS

I am highly grateful to Dr. Chandrashekar Adiga, Reader in Mathematics, Department of Studies in Mathematics, University of Mysore, Manasagangotri, Mysore, for suggesting the problems and for guidance and supervision during the research studies. I owe my sincere and heartfelt gratitude to him for his suggestions, discussions and constant encouragement throughout my research studies.

I am indebted to Prof. S. Bhargava for his invaluable suggestions and constant encouragement.

I express my sincere thanks to Prof. Bruce C. Berndt, Department of Mathematics, University of Illinois, U.S.A., Prof. H. H. Chan, Department of Mathematics, National University of Singapore, Republic of Singapore, Prof. I. Shiokawa, Department of Mathematics, Keio University, Japan, Prof. H. M. Srivastava, Department of Mathematics and Statistics, University of Victoria, Canada, Prof. Taekyun Kim, Institute of Science Education, Kongju National University, Republic of Korea, Dr. K. R. Vasuki, Acharya Institute of Technology, Bangalore and M. S. Mahadeva Naika, Department of Mathematics, Maharani’s Science College for Women, J.L.B Road, Mysore for their useful suggestions during my research studies.

I am thankful to Prof. E. Sampath Kumar, Prof. B. S. Kiranagi, Prof. Padmavathamma and Prof. Huchegowda, other teaching staff and non-teaching staff, Department of Studies in Mathematics, University of
Mysore, Manasagangotri, Mysore, for their help during my stay in the department.

I express my sincere thanks to my mother K. Parimala and wife Mrs. Sheela C. for their due co-operation during my research studies.

I wish to thank my research colleagues K. Shivashankara, Giniswamy, V. Lokesha, B. Chaluvaraju and Puttaswamy, for their help during my research studies.

I also extend my thanks to my colleagues and friends.

The author is grateful to the referee for his suggestions which considerably improved the quality of this thesis.

(H. S. Madhusudhana)
