"Research is to see what everybody else has seen
and to think what nobody else has thought".

- Albert Szent-Gyorgyi.

It is my immense pleasure to express my sincere thanks and deep sense of gratitude to my beloved teacher, mentor and my supervisor Dr. D. S. Guru who taught me how to think better and different. He sowed in me the seed of discipline, dedication and determination, which helped me to receive the fruit of success today. He showed me that learning is a process of progressive change from ignorance to knowledge, from inability to competence and from indiﬀerence to understanding. He inspired me with his feelings of warm affection towards his students and a genuine desire to impart to them what he himself believes to be of value. Though sometimes he seems to be tough, but really he is kind hearted and was friendly whenever I wanted to discuss with him about my research topics. For me he is not only a teacher or a mentor but he is also a guardian, care taker and a well wisher. His parental love, affection and friendly attitude towards me made me feel fresh always and ﬁlled in me the spirit of doing things beyond my capacity. I am lucky and happy to have such a wonderful person in my life and career. His motivation, eagerness to impart knowledge and untiring eﬀorts helped me to reach the desired goal of doctoral work. I believe that if at all I have gained something good it is all because of his vision and guidance.
Affection, concern, encouragement and kind hearted support rendered by Prof. P. Nagabhushan deserve a great appreciation and I am really thankful to him.

I wish to express my sincere gratitude to my teacher Dr. G. Hemantha Kumar who first taught me the basics of Computer Science. His moral support, encouragement and love towards me are highly adorable and I also thank my teachers Dr. Lalita Rangarajan, Mrs. L. Hamsaveni and Mr. Suresh for their encouragement and wishes.

I cannot say in words the help and services rendered by my contemporary research colleagues Dr. B. H. Shekar, Dr. R. Dinesh, Dr. Bapu B. Kiranagi, Dr. P. Punitha and other young research colleagues Veerabhadrappa, Naveen, Manjunath Aradhya, Naushath, Nagesh, N. U. Bhanjanthri, Girish, Suraj, Prakash, Harish, Vasudev, Chennamma, Shanmukhappa Angadi and all others who made me feel untired during my research period.

I recollect the help and support rendered by all my senior research scholars during my research tenure in this Department. I should remember the caring words and the moral support given by Dr. B. S. Anami, Dr. S. Murali, Dr. M. Pai, Dr. P. Shivakumar, Dr. Ramesh Babu, Dr. Srikantna Murthy, and Dr. Ravishankar.

I would like to thank the Vice Chancellor, Registrar and all the administrative people of Mangalore University for their help and support and the administrative authorities of the University of Mysore for having permitted me to take up research work on full time.

I express my sincere thanks to Prof. Pushpa Kuttanna, The Principal, F M K M Cariappa College and the former Principal Prof T. C. Madappa for all their support, encouragement and wishes to complete my research work. Indeed, it their desire too.

It is my immense pleasure to thank Mr. M. N. Ravishankar, HOD of Computer Science, F M K M Cariappa College, who relieved me from all the responsibilities other than teaching during my stay in the college. His brotherhood feelings, caring words and kind hearted support gave me all the spirit to carryout my work. I also thank my colleagues K. P. Nagaraja, Govindaraj Pandith, Rachappa, Ranjan, Manjula Priyadarshini, Indira, Reshma, Latha and all the faculty members of the Department of Computer Science, F M K M Cariappa College for their wishes.
I am thankful to all the teaching and non teaching members of the F M K M Cariappa College and also all the staff members of the office of DoS in CS, MGM, specifically, Chikkanna, Nandakumar for their help in all aspects. I am grateful to Kishore and Sridhar for their efficient troubleshooting in keeping the computing system intact.

I thank my uncle H. S. Shivaswamy who taught me the basics of Science and Mathematics and guided me during my childhood studies. Without his support and guidance I would not have reached this stage today. I thank my parents, brothers, all my family members and relatives who blessed me and stood always behind my success in every endeavor.

I cannot forget the love and affection showered on me by the family members of my supervisor. I take this opportunity to thank Sunitha Guru, wife of my guide for her care and parental concern. Her soothing words and affection made me to forget all my worries and the feelings of being away from home. I also thank the parents, sisters, brother and brother-in-laws of my guide for their love and wishes.

I take this opportunity to thank, Lakshimi aunty, the family of Prof. P. Nagabhushan for her concern and hospitality. I reciprocate Chi. Pornima, for her love and affection.

My special thanks to Prof. Anil K. Jain for his effort and valuable suggestions to improve the quality of one of my papers got accepted in PRL. I also thank the librarian of IISc. for having permitted me to access the library and Prof. Bernier and Prof. Landry for having made available their shape database for comparative study.

On this occasion I recall the blessings of His Holiness Sri. Gurumalleswara Swamigalu, His Holiness Sri. Deshikendra Swamiji of Sutthur and His Holiness Sri. Immadi Shivabasava Swamiji of Mysore.

Friends have made me rich by giving the gift of hope, by being with me when I needed and by giving shove in the right direction when I hesitated. It is my heartfelt thanks to Natesh, Thippeswamy, Channanjaswamy, Shankaramurthy, Shivakumar and all other friends of mine, who wished me for early completion. It will be endless to list each and every friend and relative who wished the completion.

H. S. N.
