

## Acknowledgements

I joined the Department of Studies in Physics to pursue my postgraduate studies in Physics in 1999. It has been my good fortune to have encountered many people from different walks of Physics who have been a great source of inspiration, both professionally as well as personally.

I am grateful to Prof J. Shashidhara Prasad and Dr. Sridhar M. A who have given me an opportunity to explore my research interests and pursue the Ph.D. programme at the National Single Diffractometer Facility in the Department of Studies in Physics, Manasagangotri, Mysore. I would like to thank Dr. Sridhar M. A. for his guidance and encouragement throughout.

I thank Prof. A. V. Gopala Rao, Chairman of this department for providing the facilities. I am also grateful to Prof. Anamik Shah, Department of Chemistry, Saurashtra University, Rajkot and Prof. K. S. Rangappa, Department of Studies in Chemistry, Manasagangotri, Mysore for providing the samples.

I would like to thank all the faculty members, my colleagues and research fellows of this department for their support. I thank Mr. Naveen S. and Ms. Sarala G. for their timely help during the writing of this thesis. A special word of gratitude to Dr. Bostjan Kobe and Dr. R. P. Srikanth Chakradhar for providing the reference materials.

I thank Mrs. Madhuri Thathachari for her moral support and encouragement over the years. I have to acknowledge the patience and support extended by my family, friends and in-laws. I am indebted to my parents, brother and sister who have always been there for me. Last but not the least, I am thankful to my husband, Dr. Varadaraj K.L. for having supported me immensely.
