Thanks are also expressed to Shri. A. B. Bhosale, Mrs. A. P. Bhople, Mr. Bhagat and Mrs. Ganeshe of University Library for providing me the articles from various national and international journals.

I immensely thank Directors of IIM (K), RATM (Mathura), Vidyabharti Mahavidyalaya, Amravati and ICFAI University, Amravati Branch for exchanging their views and ideas with me and letting me use their extremely well stocked libraries.

I will fail in making my acknowledgement if I don’t mention my husband Alok and my in laws Dr. M. B. Mishra and Dr. K. M. Mishra.

There are many challenges in life. Some, such as this research work one chooses for oneself. I acknowledge my parents, Shri. Surendra and Gayatri Tiwari for their love, support, encouragement and understanding in dealing with all the challenges. This simple paragraph cannot express the gratitude I have for them. I specially owe the completion of my work to my brother Parag and my kids Urja and Oj. Many times due to this work they were left unnoticed.

I shall always remain indebted to all the respondents. I gratefully acknowledge the contribution of a large number of colleagues, friends and students who rendered their help in various ways during the course of study. Thanks should also be mentioned to Dr. Ashok Tiwari, Dr. Satish Tiwari, Monika, Amrita, Ujjwal, Abhishek, Mangesh and Shailesh.

Contributions from so many others whose names do not figure here deserve my whole hearted thanks for their selfless help without whose support this study could never have been completed.

Amravati.
