ACKNOWLEDGEMENTS

With great respect and gratitude I record my sincere thanks to my teacher and guide Dr. G.R. Shivamurthy, Professor, Department of Studies in Botany, University of Mysore, Mysore, for the excellent guidance, continuous encouragement and wholehearted support at each and every step of the study. His ideas have nurtured and stimulated my interest in the study of parasitic angiosperms.

I am thankful to Dr. K.A. Raveesha, Head of the Department of Botany, Mysore University for providing the facilities.

I have no words to express my deep sense of gratitude and indebtedness to Mrs. G.R. Kavitha, Curator, Department of Studies in Botany, University of Mysore, Mysore, who has been a constant source of inspiration and encouragement to me throughout this study. Her help in the laboratory techniques, in photography and critical and valuable suggestions during the preparation of the thesis are gratefully acknowledged.

I would be failing in my duty if I do not extend my sincere thanks to Sri. K.B. Sadananda, Mr. K.K. Sampath Kumar, Scientist, Phyto-myc, Nanjjangud, Mr. S.N. Kumar Librarian, Govt. Women’s college, Mandya, and Mr. K.G. Binu who have accompanied me to different places during my plant collection trips. I am highly indebted for their invaluable suggestions and help.

My special thanks are due to Dr. M.S. Sudarshana for providing laboratory facilities to carry out the photography work. In addition I also express my heartfelt thanks to Dr. T.C. Shivashankara Murthy, Dr. G.R. Janardhan, Dr. Shobha Jaganath, Dr. S. Leelavathi, Dr. M.S. Sharada, Sri. K.M. Jayaramaiah, Dr. K.N. Amruthesh and Dr. Rajkumar H. Garampalli for their help and co-operation during my stay in the department.

I express my sincere thanks to Mr. T.N. Manohara and Mr. N. Rajashekar, Research scholars for their kind help, always generously given.

I express my special thanks to Mr. K.A. Prasanna, Mr. G.P. Satheesh, Prof. Venugopal, and Mr. Kulashekara for their kind help in Photography and related work.
My sincere thanks are due to Dr. Rajanna, Reader in Botany, Bangalore University, Bangalore, for his valuable suggestions and help.

The constant encouragement by the Principal and all the teachers of Maharani’s Science College, Mysore is also thankfully acknowledged.

I am thankful to Dr. V. Prakash, Director, Dr. Anbelagan and staff, CFTRI, Mysore for their help in SEM studies of seed and pollen samples.

My thanks are due to Prof. Madhusoodanan, Prof. M. Sivadasan and Dr. Pradeep Dept. of Botany, Calicut University, Calicut, Kerala for providing valuable suggestions regarding the distribution of my study material and giving the opportunity to visit the dept. Herbarium.

I also thank Mr. Ratheesh Narayan of M. S. Swaminathan institute, Kalpetta who is instrumental in locating the habitat of Aeginetia pedunculata in Wayanad. Mr. Prabhakar Hebbar of Kerekatte, Chikmagalore District is gratefully remembered for his help during the field trips to Western Ghats.

A word of special thanks goes to Mr. B.R. Ray of Sugarcane research station, Nadia, West Bengal, Prof. M.K. Dasgupta of Vishwabarathi Univ. Santhiniketan, West Bengal and Mr. Sunil Srivastava, Royal Botanical gardens, Kew for providing literature on Orobanchaceae.

I am thankful to my friends, fellow research scholars as well as well wishers for their kind assistance whenever approached. My thanks are also due to all non-teaching staff, Department of studies in Botany for their help.

I will fail in my duty if I have not expressed my gratefulness to my wife Dr. Sindhu who helped me in various ways during the course of this study. I am also thankful to my parents, brothers, sisters and other family members for their invaluable help and constant encouragement.

Financial support in the form of FIP by UGC, New Delhi, for conducting this study is gratefully acknowledged.

C.R. Vijay
