List of Tables

Table no. (1) showing the number of the items in the students’ questionnaire and the information they elicited 131

Table no. (2) showing the items, contents, objectives and marks of the test 135

Table no. (3) showing the form of the items and the number of the subparts 135

Table no. (4) showing the number of students’ questionnaires, administered and received 140

Table no. (5) showing the number of students who did not write their roll numbers on their questionnaires 140

Table no. (6) showing the number of teachers who took the questionnaires 141

Table no. (7) showing the Average of Students’ Age 151

Table no. (8) showing the gender-wise statistics of the subjects of the study 152

Table no. (9) showing the Outsider-Insider picture of the subjects 152

Tables nos. (10 and 11) showing the statistics of Parental Education 153

Table no. (12) showing the statistics of the students with jobs and those without jobs 154

Table no. (13) showing the gender-wise hometowns of working students 154

Table no. (14) showing the number of students who had primary and secondary education in government and private schools 155
Table no. (15) showing statistics of the students’ who took English courses before entering the university

Table no. (16) showing the statistics of the students’ previous experience of English language teaching

Table no. (17) showing the typology of Motivation

Table no. (18) showing a typology of gender-wise motivation

Table no. (19) gives gender-wise statistics of students with instrumental and integrative motivation

Table no. (20) showing the students’ perception of the benefits of learning English language

Table no. (21) showing the students’ attitudes, i.e. positive and negative attitudes, towards learning English

Table no. (22) showing the students’ perception of the importance of basic language skills

Table no. (23) showing the students’ evaluation of the importance of the subskills of the speaking skill

Table no. (24) showing the students’ own evaluation of their English-speaking ability

Table no. (25) showing the gender-wise statistics of the students’ own evaluation of their English-speaking ability

Table no. (26) showing the students’ evaluation of their performance in the Microteaching course (II-semester, III-year)

Table no. (27) showing the students’ overall grades of the last semester (II-semester-III year)

Table no. (28) showing the students’ grades in the examination paper of Novel I in the last year

Table no. (29) showing the students’ opinion about the statement: ‘literary subjects, e.g. Novel I, improve your actual use of English’
Table no. (30) showing the students' opinion about the statement: 'Materials used in the English Department, e.g. Grammar (1-4) are sufficient to satisfy the needs of the students of English and to enable them to speak English appropriately

Table no. (31) showing the pre-event feelings of students speaking English

Table no. (32) displaying the reasons underlying the students' language anxiety

Table no. (33) showing the reasons that are subsumed under 'others' in the above table as given in the students' own words

Table no. (34) showing the gender-wise statistics of the students' language anxiety

Table no. (35) showing the statistics of students' reaction in the English classroom

Table no. (36) showing the statistics of students who preferred to participate in classroom discussion

Table no. (37) showing the frequency statistics of students speaking English in the classroom

Table no. (38) showing gender-wise statistics of the students' participation in the English classes

Table no. (39) showing the statistics of sociability of the students

Table no. (40) showing how often students do group-study in English

Table no. (41) showing how often the students create relationships with others, with teachers for example

Table no. (42) showing how often the students read newspapers, magazines, books and pamphlets in English
Table no. (43) showing the frequency of the students’ English-speaking behavior outside the classroom

Table no. (44) showing how often the students watch English films and programmes

Table no. (45) showing the extent of students’ involvement in communicative activities in the classroom

Table no. (46) showing how often teachers make mistakes while speaking or writing English in the classrooms

Table no. (47) showing how often teachers value the students’ opinions about some issues, e.g. selecting topics to learn

Table no. (48) showing the different learning strategies students use to learn English

Table no. (49) showing the ranked learning strategies used by the students

Table no. (50) showing the nationalities of teachers in the English Department, Faculty of Education at Hodeidah University

Table no. (51) showing the academic qualifications of the teachers in the Department of English

Table no. (52) showing the areas of specialization of the teachers in the English Department

Table no. (53) showing the areas of specialization, the academic positions and the nationalities of English teachers in the Department of English

Table no. (54) showing the teaching experience of teachers in the Department of English

Table no. (55) showing when the teachers joined the English Department in the Faculty of Education

Table no. (56) showing the employment status of English teachers in the Department of English
Table no. (57) showing the teachers' differential attitude towards the importance of grammar in teaching and learning English

Table no. (58) showing the teachers' differential attitude towards using communicative activities in the classrooms

Table no. (59) showing the teachers' differential attitude towards the correction of students' mistakes inside the classrooms

Table no. (60) showing the teachers' attitude towards the teachers' roles in the teaching process

Table no. (61) showing the teachers' differential attitude towards the students' role in the learning process

Table no. (62) showing teacher-response to statements no. '6-20' which predict their teaching methodology

Table no. (63) showing the teachers' differential attitude towards student-needs

Table no. (64) showing the teachers' differential attitude towards the evaluation of English in the English Department, Faculty of Education

Table no. (65) showing the teachers' differential attitude towards the literary materials used in the Department of English

Table no. (66) showing the number of the students who responded to the test and of those who didn't respond

Table no. (67) showing gender-wise statistics of the testees

Table no. (68) showing the students' responses to the first subpart of question no.1

Table no. (69) showing the students' answers to the second sub-part of the first question

Table no. (70) showing students' answers to the third subpart of the first question

xix
Table no. (71) displays the students’ answers to the fourth subpart of the first question.

Table no. (72) showing the students’ answers to the last subpart of the first question.

Table no. (73) showing the students answers to the first subpart of the second question that is for grammar Table no.

Table no. (74) showing the students’ answers to the second subpart of the second question.

Table no. (75) showing the students’ responses to the last subpart of the second question

Table no. (76) showing all students’ responses to the items in the test

Table no. (77) showing the Facility Value (FV) of each item in the test

Table no. (78) showing the frequency distribution of the scores obtained by the students and the percentages

Table no. (79) the gender-wise scores obtained by the students

Table no. (80) showing the gender-wise scores of students in the vocabulary item

Table no. (81) showing the gender-wise scores of students in the grammar item.

Table no. (82) showing the gender-wise scores students obtained in the test

Table no. (83) showing the gender-wise statistics of the number of students who got maximum and minimum scores in the test
