Acknowledgements

I wish to express my sincere thanks and deep sense of gratitude to my guide Dr. Asna Vrooj, Reader, Department of Studies in Food Science and Nutrition, University of Mysore, Mysore, for her guidance, invaluable suggestions, immense patience, constant encouragement and support during the period of this investigation. I am grateful to her for having believed in my abilities and providing me with the utmost independence at work during my research programme.

I am grateful to my co-guide Prof. Syed Akheel Ahmed, Department of Studies in Chemistry, University of Mysore, Mysore, for his valuable suggestions, support and help during my research work.

I wish to thank Prof. Shashikala Puttaraj, Chairperson, Prof. G. Saraswathi and Prof. Rudramma, former Chairpersons, Department of Studies in Food Science and Nutrition, University of Mysore, Mysore, for their help and for allowing me to use departmental facilities.

I am indebted to Dr. G.R. Janardhana, Department of Studies in Botany, University of Mysore, Mysore, for the innumerable favors and for providing me with the laboratory facilities to carry out the antimicrobial assay. I also thank research scholars, Mr. Ahmed S.S. and Mrs. Regina S.E. for their help and cooperation.

I sincerely thank Dr. Prakash, former Chairperson, Department of Studies in Applied Botany and Biotechnology, University of Mysore, Mysore, for providing me with the departmental facilities to carry out part of my work. Special thanks to Dr. Ravishankar Rai, for his help in conducting part of antimicrobial assays.

I wish to express my sincere thanks to Prof. Cletus J.M. D'Souza, Department of Studies in Biochemistry, University of Mysore, Mysore, for his valuable suggestions and constant encouragement during the period of my work.

I am grateful to Prof. K.S. Rangappa, Department of Studies in Chemistry, University of Mysore, Mysore, for providing me with the departmental facilities to carry out elemental analysis. Thanks to Prof. D.Channe Gowda, for his help and cooperation.

I am sincerely thankful to Dr. Prahallado, University Scientific Instrumentation Center, University of Mysore, Mysore, for his help in conducting NMR analysis.
I sincerely thank Dr. S.G. Bhat, former Head, and Dr. U.N. Salimath, Head, Department of Biochemistry and Nutrition, CFTRI, Mysore, for providing me with the departmental facilities to carry out part of my research work. My special and sincere thanks to Dr. T.P. Krishnakanta, Scientist, Department of Biochemistry and Nutrition, CFTRI, for his invaluable suggestions, foremost being free access to his lab, and providing me with the laboratory facilities to carry out the platelet aggregation assay. I also thank Dr. V.J.S. Prasada Rao, Scientist, Department of Biochemistry and Nutrition, CFTRI, for his help and cooperation. I am also thankful to my friend, Ajila C.M. for her help and friendship.

I wish to express my sincere thanks to Dr. Jagan Mohan Rao, Scientist, Department of Plantation Products, Spices and Flavour Technology, CFTRI, Mysore, for the valuable suggestions in the interpretation of data pertaining to structural characterization.

I gratefully acknowledge the Indian Institute of Science, Bangalore, and Sophisticated Analytical Instrument Facility, Indian Institute of Technology, Chennai, for conducting the instrumental analyses of my work.

It is my duty to acknowledge Department of Studies in Sericulture, University of Mysore, Mysore, for providing Mulberry leaves.

I extend my warm gratitude to my friends in Department of Studies in Food Science and Nutrition, University of Mysore, Mysore, for their cooperation and friendship. Special thanks to Vishalakshi Devi, D., for her help and friendship. I also thank all staff members of Food Science and Nutrition Department, for their help and cooperation during my research work.

I gratefully acknowledge First Secretary and Director, Science and Education Section, Embassy of the Islamic Republic of Iran, New Delhi, for their help and support.

My sincere and heartfelt thanks to my parents for their blessings, spiritual support, encouragement and great patience throughout my stay in India.

I heartily thank my husband, Mr. Mehran Aalami, for his affectionate support, encouragement and patience during my research work. Special thanks to my son, Sadra, who accepted and endured my absence at home and cooperated very well throughout my study. Without their help and patience, the thesis would have not reached the final goal.
