ACKNOWLEDGEMENT

The author wishes to express his appreciation and deep sense of gratitude to Dr. Sudhir K. Gupta for his continuous guidance and suggestions, his stimulating criticism throughout the course of this investigation and his generous help in the preparation of the manuscript.

The author is thankful to Dr. D. Sundaresan, Director, National Dairy Research Institute, Karnal for providing necessary facilities and arranging through Dr. (Mrs.) S. Bajaj, Dean, College of Home Science, Punjab Agricultural University, Ludhiana the nutritional assessment of the soy-whey weaning food. He is also thankful to Prof. M.R. Srinivasan, Head, Dairy Technology Division for necessary help during the course of the work.

The author expresses his sincere appreciation to Mr. R.B. Rajor, Mr. G.R. Patil, Mr. A.A. Patel, and Mr. U.M. Uaghmare, whose encouragement and willingness contributed to the completion of this investigation and manuscript.

Thanks are also due to Mr. Bhupal Singh for his help in statistical analysis, and to Mr. Y.B. Barnabas, Mr. K.P. Unnithan, Mr. P.Satyanarayana, Mr. Drij Lal, Mr. Dev Raj Rana and Mr. Davinder Singh for their help during plant trials.

The author is also indebted to Roche Laboratories, Bombay for providing gift samples of vitamins A, D and E.

He is specially thankful to the Haryana Agricultural University, Hissar for granting him the study leave, and to Dr. R.N. Pal, Dean, College of Animal Science for sparing him to undertake this investigation.
