Abbreviations

Chapter 1: Introduction

1.1 Steganography

1.1.1 Types of Steganography

1.2 Image Steganography

1.2.1 Spatial Domain Techniques

1.2.2 LSB Substitution Method

1.2.3 Transform Domain Techniques

1.2.4 Discrete Cosine Transform

1.2.5 Discrete Wavelet Transform

1.3 Comparison between DCT and DWT

1.4 Evaluation of image quality

1.5 Comparison of image steganographic techniques

1.6 Cryptography

1.7 Steganalysis

1.8 Motivation

1.9 Objective

1.10 Methodology

1.11 Overview of thesis

1.12 Major contributions
Chapter 2: Literature Survey

2.1 Introduction 13
2.2 Techniques 13
2.3 State of the Art Study 15
2.4 Problem Formulation 21
2.5 Conclusion 22

Chapter 3: Multiple Edge Detection with Error Replacement Method in Time Domain Technique

3.1 Introduction 23
3.2 Related Work 23
3.3 Proposed Work 26
3.3.1 Multiple Edge Detection 26
3.3.2 Minimum Error Replacement Method 29
3.3.3 Advanced Error Replacement Method 31
3.3.4 Comparison between Simple edge and Multiple Error detection Method 34
3.3.5 Comparison between MER and AER 34
3.4 Variable Embedding Ratio 35
3.5 Color Image Stegnography 39
3.5.1 Embedding and Retrieval of data 39
3.6 Results And Discussions 40
3.6.1 Sobel vs. canny operator 40
3.6.2 Multiple Edge Detection 42
3.6.3 Simple LSB Substitution 43
3.6.4 VER Method 45
3.6.5 VER method with MER 47
3.6.6 VER with AER 50
3.7 Conclusion 51
CHAPTER 4: Enhanced Stego-Crypto Techniques for Data Hiding Through Geometrical Figures in an Image

4.1 Introduction 52
4.2 Cryptography 52
4.3 Steganography 53
4.3.1 Image Steganography 53
4.4 Related Work 54
4.5 Proposed Method 55
4.5.1 Data Encryption 56
4.5.2 Data Decryption 56
4.6 Multiresolution 57
4.6.1 Wavelet Transform 58
4.7 Curvelet Transform 59
4.7.1 Applications of Curvelet Transform 61
4.8 Geometrical Way of Embedding Data 61
4.8.1 Algorithm for Hiding Data 61
4.8.2 Algorithm for Retrieval of Hidden Data 62
4.9 Formation of Sub-Bands of Different Frequencies 63
4.10 Data embedding using wavelet Transforms 65
4.10.1 Algorithm for Data Embedding 65
4.10.2 Data Embedding in Wavelet domain 65
4.10.3 Algorithm for Data retrieval 66
4.10.4 Data retrieval in Wavelet Domain 67
4.11 Curvelet Transform Analyses 68
4.11.1 Curvelet Transform method 70
4.11.2 Curvelet Transformatin to obtain Sub bands 71
Chapter 5: Skin Tone Algorithm

5.1 Introduction 82
5.2 Related Work 82
5.3 Proposed Method 83
5.4 Embedding the Secret Image Pixel By Pixel in the Skin Region of the Entire Cover Image 84
5.4.1 Functionality of the encoder 84
5.4.2 Functionality of the decoder 84
5.4.3 Flowchart of embedding process 85
5.4.4 Flowchart of extraction process 86
5.5 Embedding the Frequency Domain Coefficients of Secret Image in the Skin Region of the Entire Cover Image 86
5.5.1 Functionality of the encoder 87
5.5.2 Functionality of the decoder 87
5.5.3 Flowchart of embedding process 88
5.5.4 Flowchart of extraction process 89
5.6 Embedding the Secret Image Pixel By Pixel in Skin Region of the Cropped Cover

6.6 Simulation and Performance Comparison for Skin Tone algorithm for all four methods

6.6.1 Encoder & Decoder output embedding the secret image pixel by pixel in the skin region of the entire cover image

6.6.2 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.3 Embedding the frequency domain coefficients of secret image in skin region of the cropped cover image

6.6.4 Embedding the frequency domain coefficients of secret image in skin region of the cropped cover image

6.6.5 Embedding the frequency domain coefficients of secret image in skin region of the entire cover image

6.6.6 Embedding the frequency domain coefficients of secret image in skin region of the cover image

6.6.7 Embedding the frequency domain coefficients of secret image in skin region of the entire cover image

6.6.8 Embedding the frequency domain coefficients of secret image in skin region of the cropped cover image

6.6.9 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.10 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.11 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.12 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.13 Embedding the secret image pixel by pixel in skin region of the cropped cover image

6.6.14 Embedding the frequency coefficients of secret of the cropped cover image

6.6.15 Embedding the frequency domain coefficients of secret image in skin region of the cropped cover image

6.6.16 Embedding the frequency domain coefficients of secret image in skin region of the cropped cover image
