Acknowledgements

This thesis arose in part out of years of research that was done since I came to CSIR-IITR, Lucknow. During this time, I have worked with people whose contributions in this research work has been immense that has made this thesis very special.

At first I would like to record my gratitude to my supervisor, Dr. Mukul Das for his supervision, advice, and guidance for this research as well as giving me extraordinary experiences throughout the work. Above all and the most needed, he provided me unflinching encouragement and support in various ways. His true scientific intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspired and enriched my growth as a student, a researcher and a scientist that I want to be. Throughout my life, I will be indebted to kindness, he has shown during my work, be it upliftment of morals or rejuvenating my spirit, he was always there and will be forever remembered as a wonderful guide.

I gratefully thank my Ph.D. co-supervisor Dr. Swatantra K. Jain for his constructive criticism, support and cooperation throughout my work. Without his comments it was not possible to compile the thesis in the present way.

I sincerely thank Dr. Kausar M. Ansari for his affection and support. He is the one who teach me to dream big and encourage me to chase that dream. He was always there for me in all the ups and downs during my stay in Lucknow.

I extend my sincere gratitude to the Director, CSIR-Indian Institute of Toxicology Research and other CSIR-IITR officials for providing necessary help and facilities.

I want to express my sincere thanks to my madams Amita and Neha for their affection for me. Working with them was fun and remains treasure for whole of my life. Rajesh sir and Vivek sir are the seniors who encouraged me and showed me the path. I am indebted to all of my seniors and juniors of Food Toxicology Lab for providing a stimulating and fun environment to learn and grow.

Financial support from Council of Scientific and Industrial Research, Govt. of India in the form of Research Fellowship is duly acknowledged.
