Acknowledgments

Research is a never ending process involving a team of persons striving to attain newer horizons in the field of sciences. This thesis would not have been completed without the encouragement and co-operation of my parents, teachers, friends, well-wishers and relatives. I take this opportunity to express my deep gratitude to one and all.

Let me take this opportunity to express my genuine gratitude and homage to my research supervisor Dr. N. P. Argade who introduced me into this fascinating empire of chemistry. His principles, discipline, simplicity, support, caring attitude and provision of fearless work environment will be cherished in all walks of my life. I am very much grateful to him for his valuable guidance, everlasting encouragement, supporting my attendance at various conferences, engaging me in new ideas, and demanding a high quality of work in all my endeavors. I am certain that his ethics and moral values which I learnt from him will go a long way in making me a better human being.

I thank our Head, Division of Organic Chemistry and Director NCL for providing infrastructure facilities. I sincerely acknowledge CSIR, New Delhi for the award of research fellowship. I also thank all DOC students, staff members for their timely help. The work would not have been complete without the help provided by the analytical groups like NMR, IR, HRMS, HPLC, mass spectroscopy, microanalysis and X-ray. I sincerely thanks to Dr. P. R. Rajmohan for helpful NMR discussions, Mrs. Shantakumari for the HRMS analysis and Mrs. S. S. Kunte for HPLC analysis. DIRC and library staff members are also acknowledged. My thanks are due to Dr. S. S. Bhosle and Dr. (Mrs.) S. R. Gadre for their help and encouragement. I thanks to Dr. D. D. Dhavale for their helpful discussions and suggestions.

I am thankful to my mentors from School, and lecturers and professors from ASC College Cidco, Nashik for their inspirational teaching, ethics and discipline. I also thank to Chaudhari sir, Varkhedkar sir, Bobade sir, Borhade sir, Joshi sir, Gosavi madam, Kulkarni madam, Suryavanshi madam, Mhaske sir, and other professors from chemistry department, ROK college Nashik, and also Dr. S. V. Patil sir for their encouragement.

This thesis gradually emerged amid the friendships that animated my NCL years and provided their most lasting lessons. I was blessed with an opportunity to work in a most united, homogeneous and clean lab. I enjoyed the cheerful co-operation and accompany of my seniors Mehrajbhai, Sanjib (dada) and Kishan (anna), Umesh, Rameshbhai, Prasad and Mandeep who, apart from tuning my skills, made me feel a
member of this family right from the day one in the lab. I am very much thankful them for their constructive criticism, advices, support, true help, love and care that have helped me to give my best. My special thanks to lab-friends Pravat, Ramesh Jr., Ravi, Sagar, Shivaji and Manoj for their helpful discussion, co-operation and maintaining amazing atmosphere with humour and harmony in the lab. The warm memories of my days in Lab-195 will haunt me forever. I also thank to Chavan mama for co-operation. I also thank to all my senior lab-members for their help and encouragements.

I would like to extend my thanks to Abasaheb, Abhijit, Sutar, Balaji, Prakash, Bhausaheb, Vaibhav, Deepak, Sangram, Tukaram, Pankaj, Roshan, Varun, Anil, Rahul, Sachin, Mangesh, 3 Ravi, Kishor, Pradeep, Prakash, Ranjeet, Milind, Pramod, Pankaj, Jyoti, Swati, Gauri, Roshna, and my all other friends for co-operation and making my stay at NCL very comfortable and memorable one. I am also thankful to my roommates Mahesh, Vilas, Navnath, Kishor, Yogesh, Pawan, Sudhir, Shashikant and Chetan, who shared their residence with me.

I am really thankful to my friends Harish, Dinesh, Narendra, Kishor, Dinesh and Gunshekhar for their good wishes, direct and indirect help, and emotional support. I would like to extend my thanks to my M. Sc. Friends Pramod, Shrihari, Manish, Kishor, Amol, Prakash, Sharad, Rajashri, Monali, Harshali, Mitali, Yogita, Manisha, Mayura, Pratiksha, Pallavi, Neelam and Pradnya. I also consider myself blessed in that I got to spend time here in NCL with a really good friend Harshali. We forged a unique friendship involving many memorable experiences that I’ll always cherish.

I am pleased to my fiancée Manasvi for her understanding and support during my write-up stage. No word would suffice to express my gratitude and love to my Aai and Pappa, brother Vinod, my grandfather, grandmother and all family members for their continuous showering of boundless affection on me and supporting me in whatever I chose or did. It is my parent’s prayer, constant struggle and relentless hard work to overcome the odds of life, which has inspired me to pursue life with a greater optimism. The warmth and moral value of my parents have stood me in good stead throughout my life and I would always look up to them for strength no matter what I have to go through. This Ph. D. thesis is a result of the extraordinary will, efforts and sacrifices of my parents. I would like to dedicate this moment of joy to my parents and family. I owe everything to them.

I wish to express my gratitude towards “god-almighty”, who gave me the strength and courage to fulfil my dream and has showered upon me his choicest blessings.

Prashant
