ACKNOWLEDGEMENTS

The author wishes to express his sincere, humble and deep sense of indebtedness and gratitude to Dr. T.K. Nagsarkar, Professor and Head (Retd.), Electrical Engineering Department, Panjab Engineering College, Chandigarh for his sincere, invaluable and enthusiastic guidance throughout the course of this work. His valuable suggestions and continuous inspiration in carrying out the work are sincerely acknowledged.

The author is very much grateful to Dr. C.S. Rao, Director Principal, Swami Vivekanand Institute of Engineering and Technology, Ramnagar (Banur), Punjab, for his sincere and constant guidance for the entire course of the present work. His valuable suggestions during discussions are gratefully acknowledged.

The author is grateful to Dr. Gurnam Singh, Professor and Head, Electrical Engineering Department, Panjab Engineering College, Chandigarh for taking keen interest in the work and providing all the necessary facilities for carrying out the work.

The author extends his sincere thanks to all the authors whose work have been referred in the text. The author thankfully acknowledges, all the valuable support rendered by his colleagues, friends and well-wishers for carrying out the work.

The author gratefully acknowledges the mental support and the immense help rendered by his wife Smt Shipra Chatterjee without whose cooperation it was not possible for him to complete the work.

Last but not the least, the author wishes to thank all who have contributed directly or indirectly for carrying out this work.
