## CHAPTER I Introduction

1.1 Introduction 
1.2 The Problem of Radiation 
1.3 Review of Studies on the Effect of Radiation on Human Health in the Global Perspective 
1.4 Review of Studies on Radiation and Health in Coastal Kerala 
1.5 Economic Analysis of Pollution 
1.6 Studies in the International Context 
1.7 Studies on Economic Aspects of Pollution in the Indian Context 
1.8 The Research Problem and Researchable Issues 
1.9 Setting for the Study 
1.10 Objectives of the Study 
1.11 Hypotheses 
1.12 Data and Methodology 
1.13 Limitations of the study 
1.14 Chapter Scheme for the thesis 

## CHAPTER II Analytical Framework and Methodology

2.1 Introduction 
2.2 Analytical Framework 
2.3 Valuing health effects due to Environmental Pollution 
2.3.1 Physical Linkage Method 
2.3.1.1: Cost of Illness Approach 
2.3.1.2: Human Capital Approach 
2.3.2 Disability Adjusted Life Years (DALY) Method 
2.3.3 Contingent Valuation Approach 
2.4 Methodology for the Present Study 
2.4.1 Profile of Karunagapally Taluk 
2.4.2 Sampling frame for the study 
2.4.3 Questionnaires used in the Study 
2.4.4 Measuring Health Costs due to Radiation Induced Pollution in Karunagapally Taluk 
2.5 Conclusion 

## CHAPTER III Radiation Induced Pollution in Karunagapally Taluk: An Analysis based on Secondary Data

3.1 Introduction 
3.2 Radiation levels and Radiation related illnesses in Karunagapally taluk 
3.3 Summary and Issues for Discussion
CHAPTER IV  Socio-Economic and Demographic Profile of the Study and Control Group Households and Factory Workers 77-93

4.1 Introduction 77
4.2 Respondents of the Study and Control group Households 77
  4.2.1 Demographic and Social Factors 78
  4.2.2 Habit of Smoking and Drinking 80
4.3 Profile of the Households in the Study and Control group 81
  4.3.1 Demographic and social characteristics of the households 81
4.4 Housing condition 83
4.5 Income and Expenditure Pattern 84
  4.5.1 Family Monthly Income 84
  4.5.2 Family Monthly Expenditure 85
4.6 Profile of Workers 86
  4.6.1 Socio-Economic and Demographic characteristics of the Workers 87
  4.6.2 Type of work 89
  4.6.3 Wages, Bonus and Family Income of workers 90
    4.6.3.1 Wages and Bonus Received by Workers 90
    4.6.3.2 Total Family Income of the Households of Workers 91
  4.6.4 Personal habits 92
4.7 Conclusion 93

CHAPTER V  Analysis of Cost of Illness borne by the Local Community affected by Radiation Induced Pollution 94-123

5.1 Introduction 94
5.2 Morbidity Condition of the Households 94
  5.2.1 Morbidity Condition due to Non Radiation Induced Illnesses 95
  5.2.2 Morbidity Condition due to Radiation Induced Illnesses 97
5.3 Loss of workdays and wages due to Non Radiation and Radiation induced illnesses 101
  5.3.1 Loss of workdays and wages due to non-radiation induced illnesses 101
  5.3.2 Loss of workdays and wages due to radiation induced illnesses 102
5.4 Source of Health Care and Cost of Illness 104
  5.4.1 Cost of Outpatient Care 106
  5.4.2 Cost of Inpatient Care 110
  5.4.3 Total Cost of Illness of the household in the Study and Control group 112
5.5 Health Expenditure Details and Sources, and Level of Indebtedness 113
  5.5.1 Health Expenditure for the Study and Control group in the last one month 114
  5.5.2 Proportion of Health expenditure to Total Family expenditure 114
  5.5.3 Sources of Meeting Health Expenditure 115
  5.5.4 Level of Indebtedness and Reasons for Indebtedness 116
5.6 Discriminant Analysis 118
5.7 Conclusion 123
CHAPTER VI  Analysis of Loss of Work Days and Cost of Illness borne by the Workers affected by Radiation Induced Pollution  

6.1 Introduction  
6.2 Morbidity Condition of the Workers  
6.2.1 Morbidity Condition due to Non radiation induced Illnesses  
6.2.2 Morbidity Condition due to Radiation Induced Illnesses  
6.3 Loss of workdays and wages due to Non Radiation and Radiation induced illnesses  
6.3.1 Loss of workdays and wages due to non-radiation induced illnesses  
6.3.2 Loss of workdays and wages due to radiation induced illnesses  
6.4 Source of Health Care and Cost of Treatment  
6.4.1 Cost of Outpatient Care  
6.4.2 Cost of Inpatient Care  
6.4.3 Total Cost of Illness to the permanent and temporary workers for a year  
6.4.4 Total Cost of Illness after Deducting Reimbursement Benefits  
6.5 Perceptions of Workers  
6.6 Conclusion  

CHAPTER VII  Analysis of Factors affecting the Willingness to Pay for Health Insurance  

7.1 Introduction  
7.2 Review of Studies on Willingness to Pay for Health Insurance  
7.3 Methodology  
7.3.1 Value Elicitation  
7.3.2 Logistic Regression Model  
7.4 Results  
7.5 Conclusion  

CHAPTER VIII  Summary, Conclusions and Policy Suggestions  

8.1 Findings of the Study  
8.1.1 Secondary Data Analysis on Radiation and Health Effects  
8.1.2 Socio-Economic Profile of the Study and Control group Households and Workers  
8.1.3 Cost of Illness borne by the Local Community  
8.1.4 Cost of Illness borne by the Workers  
8.1.5 Willingness to Pay for Health Insurance by the local community affected by radiation induced pollution  
8.2 Conclusion  
8.3 Policy Suggestions  

Appendix I  
Part I  Questionnaire for the Local Community  
Part II  Contingent Valuation Survey Questionnaire  

Appendix II  Questionnaire for the Workers
