Acknowledgement

I wish to place on record my profound gratitude to my esteemed guide, Dr. S. Chandraju, Reader, Department of Sugar Technology, Sir.M. V. P. G. Centre, University of Mysore, Tubinakere, Mandya, who introduced me to the present field of research and guided me in all its stages. His patience, constant encouragement, inspiration and guidance at every stage of the present investigation have been invaluable.

It is a great pleasure to express my special thanks to Mr. Mahadevaiah, Mr. M. P. Manohar and M. A. Harishnayak, Faculty members, Department of Sugar Technology. For their moral support and encouragement during the course of the research work embodied in the thesis.

I am ever grateful to Dr. K. S. Rai, Dr. J. Demappa, Dr. R. L. Jagadeesh and Dr. G. K. Nagaraja, Department of Polymer Science, University of Mysore for their constant support and timely help.

I am wholeheartedly indebted to the Director, Teaching and non-teaching staff, Sir. M. V. P. G. Centre Mandya, for their co-operation and timely help during the course of my research work.

I am highly thankful to the Director and Staff, V.C. form for providing the laboratory facilities to carryout the research work.

I acknowledge my sense of appreciation to the staff of P.G. Centre Library, Mandya and C.F.T.R.I, Library, Mysore, for their co-operation in extending the library facilities.
I am highly thankful to Dr. K. Ajayakumar Reader in Chemistry, Yuvaraja's college, Mysore for their cooperation and timely help during the course of my research work.

I acknowledge the SC/ST cell, University of Mysore, Mysore, for awarding me the University fellowship to undertake the present research work.

I have no words to express the patience, affection care and concern of my beloved parents and family members, which spurred me to carry on my research studies successfully.

K.B. Chandrashekar
