ACKNOWLEDGEMENT

It is a great pleasure to express my gratitude to Prof. T. Som and Prof. G. C. Sarma who provided me useful guidance, advice and encouragement in the entire period of my research work. Their enlighten criticism and openness made me more confident to move deep into the topic of electrorheological fluid. I pay my best regards to both of them.

I express my sincere gratitude to Prof. K. Hemchandran, Dean, School of Physical Sciences, who supported my endeavour whole heartedly.

I am grateful to Prof. Devojyoti Biswas, Dept. of Mathematics, Assam University for useful scientific advice and discussions. I express my sincere thanks to Prof. A. K. Sen and Prof. R. Bhattacharjee, Dept. of Physics, Assam University for their support and scientific advice in the entire period of study. I also take the opportunity to thank Mr. S. Behera, Dr. A. Chakraborty, Dr. B. Deka and Mr. S. Sengupta, lecturers, Dept. of Mathematics, Assam University for their help and encouragement. Sincere thanks to all members of office staff in the Department of Mathematics, Assam University for their help which made the official formalities easier. I thank all the members of Assam University and my friends who directly or indirectly helped me in the period of my research work.

My husband, Anil Ch. Borah encouraged me in the entire period of study and my daughter, Niharika provided joy at the moment of despair. My parents and all other family members always inspired me. Sincere thanks to all of them.

(Ms. Pratibha Borah)
Research Scholar
