ACKNOWLEDGEMENTS

It is of immense pleasure to express my hearty regards and profound sense of gratitude to my supervisor, Prof. R. Varatharajan, Department of Life Sciences, Manipur University for his constant guidance and endless inspiration in the preparation and completion of the thesis. I am deeply indebted and owe allegiance to him for his valuable and encouraging supervision and also for enlightening me in the field of insect virus.

I would like to thank the Department of Biotechnology, New Delhi for awarding me a Research Fellowship on the project “Augmentation and evaluation of viral pesticide for the control of cabbage butterfly”.

I deeply appreciate the Head Department of Life Sciences, Manipur University for providing all the necessary facilities to carry out the research work. I am grateful to Prof. T. Kameshwar Singh, Manipur University for giving encouragement and suggestions relating to the work.

My heartfelt thanks to Dr. Abdul Sattar Shah, Lilong and Ng. Iboyaima, Bashikhong for allowing me to carry out the field work

I would like to extend my gratitude to Dr. Ingobi Singh, Dr. K. Dhanapati Devi, Dr. H. Chingthangkhomba, H. Taptamani, K. Bala, M. Shyam and K. Nishikanta for their valuable help and co operation throughout my Ph. D. Work.

My thanks also go to Mr. S. Surajkumar Singh and Shidartha Waikhom for helping me in computer work.

I am also thankful to Mr. Ph. Iboyaima Sharma who took patient trouble in binding the thesis.

I express my heartiest regards to my parents, Waikhom Manichandra Singh and Waikhom Ongbi Rajani Devi and all my family members for their physical and mental support in bringing out the thesis.

Finally, I thank The Almighty God for His blessing in completing the thesis.
