

Acknowledgement

At the very outset, I would like to express my indebtedness to my Supervisor Prof. Ramendu Bhattacharjee, Department of Physics, Assam University, Silchar, who inculcated the scientific temperament, inquisitiveness and the thirst for acquiring knowledge in my mind. Without his valuable guidance and suggestions, constant supervision, persuasion and unstinted encouragement at every stage, the present research work could not have been completed.

I am also thankful to my Co-Supervisor Prof. (Retd.) G. C. Das, Institute of Advanced Study in Science and Technology, Guwahati for his encouragement and lively discussions on the various essence of the subject in this research work.

I am also thankful to the Vice Chancellor, Assam University, Prof. D. Biswas, Dean, School of Physical Sciences, Prof. Ramendu Bhattacharjee, Head, Department of Physics and Prof. A. K. Sen, Department of Physics, Assam University, Silchar. Thanks are also due to all the teaching, non-teaching and technical staffs of Department of Physics and other departments, Assam University, and my colleagues in the Department of Physics, G. C. College, Silchar for their help and co-operation. The Principal, G. C. College, Silchar is thankfully recalled for having kindly permitted me to carry out research work at Assam University.

I also wish to thank Dr. Gunakar Das, Dr. Joydeep Choudhury and Mrs. Karabi Devi for their useful suggestions related to my work.

I would like to express my sincere regards to my mother, Mrs. Purabi Nag, without whose inspiration and co-operation, this work would not have been possible. My wife Gopa provided unstinted support and encouragement and helped me by shouldering the brunt of domestic responsibility. This column would have remained incomplete if I forgot to acknowledge the moral support of my cousins, father-in-law, mother-in-law and sister-in-law.

I gratefully acknowledge the University Grants Commission, New Delhi for providing financial assistance to me in the form of Minor Research Project bearing no. F 5-40/2005-06(MRP/ NERO)/1558 dated 19.10.2005.

Last but not the least, my sincere thanks are due to my friend Jaydeep Paul, who has firmly stood by me through thick and thin, and also to my brother-in-law Babla Purkayastha, as well as my friends Krishna Chandra Das, Mridul Mohan Das, Alok Chakraborty and others who provided helping hands to me at various phases of the work.
