ACKNOWLEDGEMENT

I would like to express my deep and sincere gratitude to my supervisor, Professor Jayashree Rout, Ecology and Environmental Science, Assam University, Silchar. Her wide knowledge and logical way of thinking have been a great value for me. Her understanding, encouraging and personal guidance have provided a good basis for the present thesis.

It is difficult to overstate my gratitude to my Co- Supervisor, Dr. D.K. Upreti, Head, Lichenology Laboratory, National botanical Research Institute, Lucknow, with his enthusiasm, inspiration and great efforts to explain things clearly and simply, he helped me to make research fun for me. Throughout my thesis writing, he provided encouragement, sound advice, good teaching, good company and lots of good ideas. I could not have been imagined having better mentors for my thesis.

I wish to express my warm and sincere thanks to Professor Dulal Chandra Ray, Head, Ecology and Environmental Science Department, Assam University, Silchar for creating a congenial and conductive environment and providing laboratory facilities for the work.

I would like to express my sincere gratitude to Professor Biman Kumar Dutta, Dean, School of Environmental Science, Assam University, Silchar for their encouragement and enthusiastic cooperation.

In particular, I am grateful to Professor Asesh Kumar Das, Department of Ecology and Environmental Science, Assam University, Silchar, for enlightening me the first glance of research. His ideals and concepts have had a remarkable influence on my entire career in the field of research.

I extent my heartiest gratitude to all the faculty members of Ecology and Environmental Science, Assam University, so long their active enthusiastic cooperation and precious suggestions.

I owe my most sincere gratitude to Dr. Sanjeeva Nayaka (Scientist), Dr. Yogesh Joshi, Dr. Santosh Joshi, Dr. Rajesh Bajpai, Dr. Satya, who gave me the opportunity to work with the in the Lichenology Laboratory, National Botanical Research Institute and gave me untiring help during my moments.

I would like particularly to acknowledge the contribution of Dr. Urvashi Dubey for her continuous and unfailing support from the very beginning of my thesis. Her kind support and guidance have been of great value in this study. I owe my loving thanks to Pappu Chaubey and all the NBRI mates without their encouragement and understanding I could not finished the thesis. They let me know a happy family in Lucknow.
I am also grateful to my beloved and esteemed seniors Drs Pullak Das, Jibendu Dutta, Albert Sajem, Linthoingambi for ungrudging support, help and constructive ideas boosted me up in course of this study.

I thank my fellow lab mates Shampa Deb, Dharitri Borah, Baswati Sarma, Tampak meena, Shouvonik Deb, Manoranjan, Amarjit, Ganga Rani, for their help, support and advice to complete my research work. I also offer my heartwarming thanks from the deepest core of my heart to Mr. Nepolion Borah, Florida, Chitrarekha. I am grateful to Roshni Khare, Aparna Dwivedi, Satish Mohabe, Gaurav K Mishra, Shagun Dixit and Preety Pandey of NBRI.

I wish Dr. Dibyajyoti Bhattacharjee, MBA Department, AUS and Manash Pratim Kashyap for their guidance in statistical analysis.

During this work I have collaborated with many colleagues for whom I have great regard, and I wish to extend my warmest thanks to all those who helped me with my work.

I am indebted to official and non teaching staff of the Ecology and Environmental Science Department for providing a stimulating and fun environment in which to learn and grow. I wish to thank my entire extended family for providing a loving environment for me. My sisters, brothers and uncles were particularly supportive.

Lastly and most importantly, I wish to thank my parents A. Birendra Kumar Singha and Lt. Dhanabati Singha, have been a constant source of support emotional, moral and course of financial during my study period and this thesis would not have been existed without them. My parents has been always my pillar, my joy and my guiding light. They bore me, raised me, supported me, taught me and loved me. To whom I dedicated this thesis.

(A. Bichitra Singha.)
