Acknowledgement

I express my deep sense of gratitude to my supervisor Aparajita De, Department of Ecology and Environmental science, Assam University, Silchar for her valuable suggestions, constant support and motivation without which this work would not have been completed.

I am grateful to my co-supervisor Prof. B. K. Dutta, ex. Dean, Department of Ecology and Environmental Science, Assam University, Silchar for his esteemed help and advice.

I would like to acknowledge Dr. Sudhakar Reddy (Scientist, NRSC), Prof. Ashesh Kumar Das and Dr. Sunil Kumar (Colorado University, USA) and Dr. Dibyendu Adhikari (NEHU) for their kind help and important contributions and suggestions. I will remain Grateful to Dr. Hilloljiyoti Singha for his constant encouragement and unforgettable help.

I am also thankful to the Tea Estate Managers for their kind co-operation and help during field study. I would also like to thank my field assistants without whom my field work would not be possible.

I wish to thank University Grant Commission (UGC) for providing the fellowship and financial assistance for taking up the research work.

I thank all the faculties. I also thank the laboratory and office staff for extending all kind of support and help during my work.

Above all I will remain ever grateful to my parents and family members for their moral support, encouragement and scarifies that has made me to accomplish my task for writing this thesis.

I am very much thankful to all of my friends who encourage me during the tenure of the study.
