ACKNOWLEDGEMENT

I am grateful to Dr. V. B. N. Madkarni, Professor and Head, Department of Zoology, Karnatak University, Dharwad, for his guidance. I am very much thankful to Dr. B. Y. M. Gouder, Dr. M. A. Hooli and Dr. S. K. S. Saidapur for their criticisms, valuable suggestions and help.

I am grateful to the University Grants Commission, New Delhi, for awarding me the Teacher Fellowship under the Faculty Improvement Programme which enabled me to carry out this work. The gift supply of the fine chemicals by the World Health Organization, Geneva, Switzerland, is gratefully acknowledged. I also thank all my research colleagues for their kind help in many ways during the course of this work, and Mr. P. R. Patil for his help in preparing the photomicrographs.

(R. N. DESAI)
