Acknowledgement

This thesis is the prominent destination of my Ph.D journey. This journey was like river crossing. But this journey was not in vacuum. Plenty of support was given by many persons, agency & colleagues.

I wish to dedicate this section to recognize the support of several persons and institutions that collaborated directly and indirectly with my research, during the development of my doctoral studies. It is impossible to individually acknowledge all those who helped and cooperated for my research work. However, I will try to express my gratitude to those who made this thesis possible and enriched my life in the last four years.

The present research work was carried out under the guidance of Dr. S.B. Attarde, Assistant Professor School of Environmental and Earth Sciences, North Maharashtra University, Jalgaon. My biggest sincere thanks goes to him, firstly for giving me the opportunity to do a Ph.D and deep sense of gratitude to him, for his invaluable guidance, suggestions, inspiration and constant encouragement throughout the period of this work, and for all the help and advises during it. I am sure that with all my tasty results, extension of deadlines, listening and learning from all the digressions, that I have done enough character building over the past few years to face the working world. I have really enjoyed my time as a Ph.D student with him.

I would like to thank Prof. S.T. Ingle, Director, School of Environmental and Earth Sciences for providing me good laboratory facilities, precious guidance and kind support during my research work. I am also thankful to Prof. P.P. Mahulikar, Director, School of Chemical Sciences for valuable guidance and encouragement provided to me. I am also thankful to Prof. D. G. Hundiwale, Director B.C.U.D for his kind support.

I would like to acknowledge Sophisticated Analytical Instrumentation Facility, Indian Institute of Technology, Pawai (SAIF, IIT Mumbai) for CHNS analysis, School of Chemical Science for FTIR analysis, Pune University for NMR and Divya lab for analysis of Mass of synthesized molecules.
I would like to acknowledge Prof. S.N. Patil, Prof. S.R. Thorat, Dr. P.R. Patil, Dr. V.M. Rokade, Dr. N.D. Wagh, Mr. K.P. Dandge, Prof. K. J. Patil, Prof. S. L. Patil, Prof. Mrs. J. S. Meshram, Prof. D. H. More, Prof. Mrs. R. S. Bendre, Prof. A. U. Borse, Dr. D. S. Dalal, Dr. V. V. Gite, Dr. K. K. Sharma, Mr. A. M. Patil, and Dr. A. S. Kuwar for their critical suggestions and encouragement during this research work. I’d like to thank all the departmental staff who has helped me directly or indirectly during my work.

This thesis could not have been completed without the support and encouragement of my family. I would like to thank my family and especially my parents and wife for being supportive. I would like to thank all my colleagues of school of Environmental and Earth Sciences and School of Chemical Sciences who have helped me and provided me with much care and support.

Finally, thanks goes to everyone in the School of Environmental and Earth Sciences and School of Chemical Sciences for providing such a nice place to work.

-Mr. Umesh Fegade
