

ACKNOWLEDGEMENT

While preparing this thesis entitled "*Economic Valuation of Environmental Resources: A Contingent Valuation of Kaziranga National Park of Assam*" which is the outcome of my research work in Kaziranga National Park, Assam, several persons were kind enough to provide me help, co-operation and assistance in the form of guidance, consultation, materials and information. It also gave me an opportunity to interact with the Assam Forest department, environmental NGOs, Assam Science Technology and Environment Council (ASTECC), Guwahati and also to consult the library of IGIDR, Mumbai, which provided valuable inputs.

At first, I heartily convey my profound sense of gratitude and humbleness to my supervisor **Dr. Alok Sen** for inspiring me to initiate the work. I also extend my sincere thanks for his continuous support and guidance throughout my work. Without his valuable guidance and help at every stage the work would not have been completed.

I owe a very significant debt to all my respected teachers of the department of Economics for their active co-operation and valuable suggestion. I am highly obliged to Dr. Dibyajyoti Bhattacharjee and Mr. Dhiren Phukan for their precious guidance and help.

I extend my sincere thanks to all my friends, Forest official of Kaziranga and the NGO personnel who gave me tremendous support and help in conducting my research work.

Last but not the least; I have saved my acknowledgement of debt to my parents for their love, support and encouragement, who have instilled in me courage, confidence and dedication in achieving my goals and helped me out from every difficulty in bringing my thoughts and labor into work.
