ACKNOWLEDGEMENTS

It gives me an immense pleasure and pride to express my sincere gratitude and respect for my teacher and guide Dr. Ahmed Kamal, Directors Grade Scientist, Chemical Biology Laboratory, Division of Organic Chemistry-I, IICT, Hyderabad, for his expert and inspiring guidance. I proclaim my indebtedness to him for his constant encouragement along with the useful suggestions and constructive criticisms during the entire tenure of this work. I consider myself fortunate in that it would have been impossible to achieve this goal without his support and care.

I am indebted to the director Dr. J. S. Yadav for having given me an opportunity to carry out the work and allowing me to submit in the form of thesis. It is a great privilege for me to be associated with Dr. J. M. Rao, Head, Division of Organic Chemistry-I for his kind help and encouragement.

My heartfelt thanks to Dr. M. Venkateswara Rao, Dr. Manika Pal Bhadra and Dr. B. V. Subba Reddy for their constant support, encouragement and timely advice. I take this opportunity to record my appreciation to spectroscopic and analytical divisions of IICT, especially to Dr. A. C. Kunwar and Dr. R. Srinivas.

I pay rich tribute to Prof. P. Venkateswarlu, Head, Prof. A. Varada Reddy, Board of Studies, and other faculty of Department of chemistry, Sri Venkateswara University, Tirupati.

I wish to express my heartfelt gratitude to Prof. C. Suresh Reddy, Prof. C. Devendranath Reddy and Dr. C. Naga Raju for their encouragement and timely advice. It is also an appropriate time to remember all my teachers and professors who at various stages of my educational carrier encouraged me to reach this level and it all is the fruit of their teaching and blessings.

My special thanks to Dr. H. Haribabu Reddy, Dr. K. Surendra Reddy, Dr. K. Sreenivasa Reddy, Dr. D. Rajasekher Reddy, E. vijaya Bharathi, D. Dastagiri, Ameer, Farheen Sulthan, M. prem sagar, Dr. Janaki Ramaiah and Dr. Pushpavalli for their cooperation in my research.

I acknowledge the help received from Usha, Shyam, Sainath, Vishnu, Balaraju and Padma.
I always feel thankful to have friends like Anji, Veera Sudhersan, Sankar Naik, Penchel Reddy, Karinulla, Suresh, Damu, Ramesh, Antony, Pulla Reddy, Prathap, Mallikarjun Reddy, Subbaiah Dr. Sreenivasa Reddy, Dr. Roshaiah, Jayaram.

I owe more than myself to my beloved father Sambi Reddy and mother Sambrajyma, who always dreamt that I reach golden heights and sky is the only limit to my success. To them I dedicate this thesis. On this occasion my heart goes for my brother Mr. Seetharami Reddy and sister-in-law Anitha and their kids Suryapratap Reddy and Manogna and my heartful thanks to my cousin's Srinivasa Reddy, Srivalli, Ravikumar Reddy, Renuka, Bhupal Reddy, Ramanji Reddy, Indrasena Reddy, Swathi, Vijay sai Reddy.

I express my heartfelt gratitude to my wife Lakshmi Harika for her affectionate encouragement and support from time to time and my heartfelt thanks to my uncle Seshi Reddy and anti Rukumini and bother-in-law Vamsikrishna Reddy and sister Sravanthi.

I take this opportunity to record my appreciation to spectroscopic and analytical division of IICT.

I also thank National Cancer Institute (NCI), USA, Advanced Center for Treatment, Research and Education in Cancer (ACTREC), Navi Mumbai and Regional Research Laboratory (RRL), Jammu for helping in the biological studies.

Financial assistance from the Council of Scientific and Industrial Research (CSIR), New Delhi in the form of fellowship is gratefully acknowledged.

Finally, I thank Director, IICT, for allowing me to submit my work in the form of thesis.

(Jonnala Surendranadha Reddy)
