ACKNOWLEDGEMENT

I owe a great debt of gratitude to Dr. M. Kalyanasundaram, Assistant Director, Vector Control Research Centre, Pondicherry for his guidance, invaluable comments and critical review of this manuscript.

I express my deep sense of gratitude to Dr. Vijai Dhanda, Ph.D., D.A.P.& E.(U.K.), Director and Padmashree Dr. P.K. Rajagopalan, Ph.D., M.P.H. (Calif.), FIBiol. (U.K.), former Director, Vector Control Research Centre, Pondicherry, for their encouragement and for providing the necessary facilities at the Centre.

I gratefully acknowledge Dr. P.K. Das, Deputy Director, Vector Control Research Centre, Pondicherry, for his valuable suggestions and encouragement.

I am thankful to Dr. K.N. Panicker, Assistant Director and Dr. G. Rajendran, Research Officer, for their help in conducting the field trial.

My grateful thanks are due to Dr. Ganga Radhakrishnan and Mr. K.R. Haridas, Central Leather Research Institute, Madras for their help in thermogravimetric analysis and Mrs. Shanthi Devanathan, R.S.I.C., Indian Institute of Technology, Madras for providing the scanning electron micrographs of the samples.

My thanks are due to Dr. Nisha George and Dr. V. Vasuki for their help during the preparation of the thesis and Mr. S. Subramanian, Mr. P. Vanamail and Mr. A. Manoharan for their help in the data analysis.

My thanks are also due to the following:

Mr. D. Jayakumar and Mr. S. Srinivasan for their technical assistance; Mr. T. Lakshhipathy for his help in the neat production of the thesis; Mr. P.K.G.K. Pillai, Mr. P. Sakthivel and Mr. G. Velayudham for their help in the preparation of illustrations and Mr. R. Joseph Suresh, Stores, for procuring the chemicals.

Prasad M.P.
