Acknowledgement

This thesis gets materialized with the help of many people. I am deeply grateful to my supervisor Dr. A. Krishnamoorthy, Professor, Department of Mathematics, Cochin University of Science and Technology, for his personal guidance and valuable support throughout this work. I owe my gratitude to Dr. T. Thrivikraman, Academic Secretary, Kerala Mathematical Association (KMA), Formerly Professor and Head, Department of Mathematics, Cochin University of Science and Technology, for his sincere help and advice.

I thank Dr. M. Jathavedan, Head, Department of Mathematics, other faculty members, Librarian and administrative staff for providing excellent facilities and supportive conditions to the work. I also thank fellow researches in the department from whom I have benefited immeasurably.

I warmly thank Dr. Vishanath C. Narayanan, Lecturer, Govt. Engineering College, Srikrishnapuram, for his extensive discussions and suggestions throughout the work. I am very much indebted to Mr. Babu S., Department of Mathematics, University College, Thiruvananthapuram, and Mr. Indulal G., St. Aloysius College, Edathua for extending their sincere help during the course of the work. My sincere thanks go to my former colleagues at Model Engineering College, Kochi, for their constant encouragement to complete this work.

A special word of thanks goes to my brother-in-law Mr. Joseph Thanikunnel for extending his knowledge and help in writing C programmes for the purpose of numerical works.
I thank the Management, the Principal, the Head of the Department of Mathematics and my Colleagues in St. Peter's college, Kolenchery for their kind cooperation and keen interest in completing this work successfully.

Without the blessings of my parents and relatives, I could not have completed this work. I remember all of them with gratitude on this occasion of fulfillment of this thesis.
